---

**A BILL**

To require the Corps of Engineers to carry out the construction and operation of a jetty and sand transfer system, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Oregon Inlet Protec-  
5 tion Act of 1993”.

1 **SEC. 2. FLOOD CONTROL IMPROVEMENTS.**

2 (a) IN GENERAL.—Notwithstanding any other provi-  
3 sion of law, the Secretary of the Army, acting through  
4 the Chief of Engineers, shall construct, operate, and main-  
5 tain the jetty and sand transfer system for the Oregon  
6 Inlet on the Coast of North Carolina, about 85 miles south  
7 of Cape Henry and 45 miles north of Cape Hatteras (as  
8 described on page 12 of H.R. Rep. No. 91–1665) author-  
9 ized under the River and Harbor Act of 1970 and the  
10 Flood Control Act of 1970 (Public Law 91–611), except  
11 that the land area of the system shall be subject to the  
12 requirements of subsection (b).

13 (b) DESIGNATION OF LAND.—

14 (1) IN GENERAL.—Not later than 60 days after  
15 the date of enactment of this section, the Secretary  
16 of the Army, acting through the Chief of Engineers,  
17 and the Secretary of the Interior shall jointly des-  
18 ignate the tracts of land for the jetty and sand  
19 transfer system described in subsection (a). If the  
20 Secretary of the Army and the Secretary of the Inte-  
21 rior fail to jointly designate tracts of land by the  
22 date that is 60 days after the date of enactment of  
23 this section, the Secretary of the Army shall des-  
24 ignate the tracts of land pursuant to a description  
25 prepared by the Secretary of the Army, in consulta-

1       tion with the Chief of Engineers, and shall notify the  
2       Secretary of the Interior of the designation.

3           (2) SIZE.—

4               (A) LIMITS.—Except as provided in sub-  
5       paragraph (B), the amount of acreage in the  
6       tracts shall not exceed—

7                   (i) with respect to the tract in the  
8       Cape Hatteras National Seashore, 65  
9       acres; and

10                  (ii) with respect to the tract in the  
11       Pea Island National Wildlife Refuge, 35  
12       acres.

13           (B) EXCEPTION.—If the Secretary of the  
14       Army and the Secretary of the Interior jointly  
15       designate the tracts of land pursuant to para-  
16       graph (1), the area of each tract may exceed  
17       the acreage specified in this subparagraph.

18       (c) MODIFICATION.—If, after designating the tracts  
19       of land pursuant to subsection (b) without the mutual  
20       agreement of the Secretary of the Interior, and providing  
21       notice to the Secretary of the Interior under subsection  
22       (b) of such designation, the Secretary of the Army deter-  
23       mines that any tract is inadequate for the construction,  
24       operation, and maintenance for the jetty and sand transfer  
25       system described in subsection (a), the Secretary of the

1 Army is authorized to designate, not earlier than 60 days  
2 after providing notice of a designation to the Secretary  
3 of the Interior under subsection (b)(1), an additional tract  
4 of land adjacent to the tract that is inadequate.

5 (d) EXEMPTION.—Notwithstanding any other provi-  
6 sion of law, the construction, operation, and maintenance  
7 of the jetty and sand transfer system described in sub-  
8 section (a), shall be exempt from any permit requirement  
9 (including any requirement for a special use permit or  
10 similar authorization) prior to the use of the system.
