JOINT RESOLUTION

To designate July 5, 1993, through July 12, 1993, as “National Awareness Week for Life-Saving Techniques”.

Whereas the National Safety Council reported that over 800,000 Americans died in 1991 as a result of accidents and diseases of the heart;

Whereas accidents are the leading cause of death for children and youth ages 1 to 24 years;

Whereas drowning and choking are a leading cause of accidental death in children under the age of 5 years;

Whereas rescue breathing and cardiopulmonary resuscitation, commonly referred to as CPR, are life-saving techniques that significantly reduce the incidence of sudden death due to accidents and diseases of the heart;

Whereas it is critical that more Americans learn such basic life-saving techniques in order to reduce the number of deaths related to accidents and diseases of the heart;

Whereas the opportunity to learn basic life-saving techniques is available to all Americans through the American Red Cross, the American Heart Association, the YMCA, and other national organizations; and

Whereas the death rate due to accidents and diseases of the heart would be greatly reduced if more Americans received training in basic life-saving techniques: Now, therefore, be it
