## A BILL

To clarify the authority of the Secretary of Agriculture to prescribe performance standards for the reduction of pathogens in meat, meat products, poultry, and poultry products processed by establishments receiving inspection services.

1        *Be it enacted by the Senate and House of Representa-*  
2        *tives of the United States of America in Congress assembled,*

1 **SECTION 1. SHORT TITLE.**

2 This Act may be cited as the “Meat and Poultry  
3 Pathogen Reduction and Enforcement Act”.

4 **SEC. 2. FINDINGS.**

5 Congress finds the following:

6 (1) The primary purpose of the Federal meat  
7 and poultry inspection program is to protect public  
8 health.

9 (2) The Centers for Disease Control and Pre-  
10 vention report that human pathogens found in raw  
11 and cooked meat, meat food products, poultry, and  
12 poultry products are a significant source of  
13 foodborne illness.

14 (3) To reduce the public health burden of  
15 foodborne illness, the Federal meat and poultry in-  
16 spection system should focus on reducing the risk of  
17 foodborne illness associated with the presence of  
18 foodborne pathogens.

19 (4) Good public health practice requires control-  
20 ling pathogens as close as practicable to the initial  
21 source of contamination to reduce pathogens and  
22 prevent foodborne illness.

23 (5) There is a need for strong safeguards at  
24 slaughter establishments during the slaughter and  
25 processing of meat and poultry products because

1 those establishments are where pathogen contamina-  
2 tion often originates.

3 (6) While proper handling and cooking of meat  
4 and poultry products can virtually eliminate the risk  
5 of foodborne illness from the consumption of meat  
6 and poultry, the presence of pathogens in raw meat  
7 and poultry products leads to cross-contamination of  
8 other foods and surrounding surfaces.

9 (7) To reduce the risk of foodborne illness and  
10 protect public health, regulatory authorities and all  
11 parties involved in the production and handling of  
12 meat, meat products, poultry, or poultry products  
13 should make a concerted effort to reduce, to the  
14 maximum extent practicable, contamination by  
15 pathogens using the best available scientific informa-  
16 tion and appropriate technology.

17 (8) The distribution of meat, meat food prod-  
18 ucts, poultry, or poultry products that contain  
19 human pathogens—

20 (A) impairs the effective regulation of  
21 wholesome meat, meat food products, poultry,  
22 or poultry products in interstate and foreign  
23 commerce; and

24 (B) destroys markets for wholesome prod-  
25 ucts.

1           (9) All articles and other animals that are sub-  
2       ject to this Act and the amendments made by this  
3       Act are either in or substantially affect interstate or  
4       foreign commerce.

5           (10) Regulation by the Secretary of Agriculture  
6       and cooperation by the States are necessary to pre-  
7       vent or eliminate burdens on interstate or foreign  
8       commerce and to protect the health and welfare of  
9       consumers.

10 **SEC. 3. PATHOGEN PERFORMANCE STANDARDS.**

11       (a) MEAT AND MEAT PRODUCTS.—The Federal Meat  
12       Inspection Act (21 U.S.C. 601 et seq.) is amended by in-  
13       serting after section 8 (21 U.S.C. 608) the following new  
14       section:

15 **“SEC. 8A. PATHOGEN PERFORMANCE STANDARDS.**

16       “(a) IN GENERAL.—In order to protect the public  
17       health and promote food safety, the Secretary shall pre-  
18       scribe performance standards for the reduction of patho-  
19       gens in raw meat and meat products processed by each  
20       establishment receiving inspection services under this Act.

21       “(b) LIST OF PATHOGENS.—

22           “(1) IN GENERAL.—In consultation with the  
23       Secretary of Health and Human Services, and tak-  
24       ing into account data available from the Centers for  
25       Disease Control and Prevention, the Secretary shall

1 identify the pathogens that make a significant con-  
2 tribution to the total burden of foodborne disease as-  
3 sociated with meat and meat products.

4 “(2) PUBLICATION; UPDATES.—The Secretary  
5 shall—

6 “(A) publish a list of the pathogens de-  
7 scribed in paragraph (1) not later than 60 days  
8 after the date of the enactment of this section;  
9 and

13 “(1) IN GENERAL.—Not later than 180 days  
14 after the date of the enactment of this section, the  
15 Secretary shall initiate comprehensive, statistically  
16 representative surveys to determine the current lev-  
17 els and incidence of contamination of raw meat and  
18 meat products with the pathogens listed under sub-  
19 section (b), including the variation in levels and inci-  
20 dence of contamination among establishments.

7 lished under subsection (b) until standards have  
8 been proposed for all pathogens on the list.

9           “(5) FINAL STANDARDS.—Not later than 1  
10 year after proposing a pathogen reduction standard  
11 for a pathogen under this subsection, the Secretary  
12 shall promulgate a final pathogen reduction stand-  
13 ard for the pathogen.

14           “(e) REVIEW OF STANDARDS.—

19 ard to determine whether the standard continues to  
20 ensure the lowest level or incidence of contamination  
21 that is reasonably achievable using the best available  
22 processing technology and practices, taking into the  
23 most recent surveys conducted under subsection (c).

1           “(2) REVISIONS.—The Secretary shall revise

9 standards promulgated under this section.

10           “(2) INSPECTIONS.—If the Secretary deter-  
11 mines that an establishment fails to meet a standard  
12 promulgated under subsection (d) and that the es-  
13 tablishment fails to take appropriate corrective ac-  
14 tion, as determined by the Secretary, the Secretary  
15 shall refuse to allow any meat or meat product sub-
