7       Congress finds the following:

1           (1) Reimbursement under the medicare pro-  
2           gram for approximately 250 hospitals nationwide is  
3           decreased by approximately \$80,000,000 each year  
4           due to the damaging effect of geographic reclassi-  
5           fication of hospitals located in the same area as such  
6           urban hospitals to other areas with a higher wage  
7           indexes.

8           (2) A provision to protect rural hospitals from  
9           similar damaging effects already exists under the  
10          medicare program.

11          (3) The Medicare Payment Advisory Commis-  
12          sion, in its March 2001 report to Congress, recog-  
13          nized these damaging effects on urban hospitals and  
14          the inequity related to the existing rule to protect  
15          rural hospitals when they stated that “Congress  
16          should protect urban hospitals from the adverse ef-  
17          fect of nearby hospitals being reclassified to areas  
18          with higher wage indexes by computing each area’s  
19          wage index as if none of the hospitals located in the  
20          area had been reassigned”.

1 **SEC. 3. APPLICATION OF WAGE INDEX FLOOR FOR HOS-**  
2 **PITAL GEOGRAPHIC RECLASSIFICATIONS**  
3 **FROM ONE URBAN AREA TO ANOTHER**  
4 **URBAN AREA.**

12 cision of the Medicare Geographic Classification Review  
13 Board or the Secretary under paragraph (10), by treating  
14 hospitals located in one urban area as being located in  
15 another urban area reduces the wage index for that one  
16 urban area (as applied under this subsection), the Sec-  
17 retary shall calculate and apply such wage index under  
18 this subsection as if the hospitals so treated had not been  
19 excluded from the calculation of the wage index for that
