

108TH CONGRESS
1ST SESSION

H. R. 2901

To protect human health and the environment from the release of hazardous substances by acts of terrorism.

IN THE HOUSE OF REPRESENTATIVES

JULY 25, 2003

Mr. FOSSELLA introduced the following bill; which was referred to the Committee on Energy and Commerce

A BILL

To protect human health and the environment from the release of hazardous substances by acts of terrorism.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Chemical Facility Se-
5 curity Act of 2003”.

6 **SEC. 2. FINDINGS.**

7 The Congress finds the following:

8 (1) Industries that manufacture, distribute, and
9 process chemicals are crucial components of the na-

1 tional economy and the critical infrastructure of the
2 United States—

3 (A) in their own right; and

4 (B) because those industries supply re-
5 sources essential to the functioning of other
6 critical infrastructure.

7 (2) A terrorist attack on a facility that manu-
8 factures, processes, or uses potentially dangerous
9 chemicals, or a theft of those chemicals from such
10 a facility for use in a terrorist attack, could pose a
11 serious threat to—

12 (A) public health, safety, and welfare;

13 (B) critical infrastructure; and

14 (C) national security.

15 (3) While Federal, State, and local governments
16 share primary responsibility for preventing, detect-
17 ing, and responding to terrorist attacks, the owners
18 and operators of facilities that manufacture, process,
19 or use potentially dangerous chemicals should take
20 every reasonable effort to protect those facilities
21 against the threat of such attacks.

22 (4) While programs to protect the health and
23 safety of workers, the public, and the environment
24 by reducing the potential for accidental releases of
25 potentially dangerous chemicals, including the con-

1 sequences of worst-case releases of those chemicals,
2 are in place as required by numerous Federal and
3 State laws, the events of September 11, 2001, dem-
4 onstrate the need to ensure that appropriate security
5 measures are taken to address the threat of acts of
6 terrorism against facilities that manufacture, use, or
7 process potentially dangerous chemicals.

3 (2) the nature and quantity of the substances
4 of concern present at a chemical source;

5 (3) the potential extent of death, injury, or seri-
6 ous adverse effects to human health or the environ-
7 ment that would result from a terrorist release;

8 (4) the potential harm to critical infrastructure
9 and national security from a terrorist release;

10 (5) cost and technical feasibility;

11 (6) scale of operations; and

12 (7) such other security-related factors as the
13 Secretary determines to be appropriate and nec-

24 sources from designation as chemical sources,

1 without regard to whether a substance of concern is
2 present at such sources in more than a threshold
3 quantity.

15 designation, exemption, or adjustment under para-
16 graph (1) in regulations promulgated under sub-
17 section (a)(1).

22 as the Secretary may establish by regulation), the owner
23 or operator of the chemical source covered by the vulner-
24 ability assessment or site security plan shall—

1 (1) review the adequacy of the vulnerability as-
2 sessment and site security plan; and
