17 **TITLE VI—CHERRY VALLEY**  
18 **NATIONAL WILDLIFE REFUGE**

19 **SEC. 601. SHORT TITLE.**

20 This title may be cited as the “Cherry Valley Na-  
21 tional Wildlife Refuge Study Act”.

22 **SEC. 602. FINDINGS.**

23 The Congress finds the following:

24 (1) The scenic Cherry Valley area of North-  
25 eastern Pennsylvania is blessed with more than 80

1 special-concern animal and plant species and natural  
2 habitats.

3 (2) In a preliminary assessment of Cherry Val-  
4 ley, United States Fish and Wildlife Service biolo-  
5 gists ranked Cherry Valley very high as a potential  
6 national wildlife refuge.

7 (3) Six species that are listed as endangered  
8 species or threatened species under the Endangered  
9 Species Act of 1973 (16 U.S.C. 1531 et seq.) have  
10 been documented within or near Cherry Valley: The  
11 bog turtle (possibly the most significant population  
12 of the listed subspecies), the dwarf wedge mussel,  
13 the northeastern bulrush, the small whorled pogonia,  
14 the bald eagle, and the Indiana bat (a historic resi-  
15 dent, with efforts under way to re-establish favorable  
16 conditions).

17 (4) Cherry Valley provides habitat for at least  
18 79 species of national or regional concern, which ei-  
19 ther nest in Cherry Valley or migrate through the  
20 area during critical times in their life cycle, includ-  
21 ing—

22 (A) neo-tropical migratory birds such as  
23 the Cerulean Warbler, the Worm-eating War-  
24 bler, and the Wood Thrush, all of which nest in  
25 Cherry Valley;

1 (B) waterfowl such as the American Black  
2 Duck;

3 (C) several globally rare plants, such as  
4 the spreading globeflower; and

5 (D) anadromous fish species.

6 (5) The Cherry Valley watershed encompasses a  
7 large segment of the Kittatinny Ridge, an important  
8 migration route for birds of prey throughout the  
9 Northeastern United States. Every migratory raptor  
10 species in the Northeast is regularly observed along  
11 the Kittatinny Ridge during the autumnal migra-  
12 tion, including the bald eagle, the golden eagle, and  
13 the broad-winged hawk.

14 (6) The Kittatinny Ridge also includes a long  
15 segment of the Appalachian Trail, a nationally sig-  
16 nificant natural-cultural-recreational feature.

17 (7) Many of the significant wildlife habitats  
18 found in the Cherry Valley, especially the rare cal-  
19 careous wetlands, have disappeared from other local-  
20 ities in their range.

21 (8) Ongoing studies have documented the high  
22 water quality of Cherry Creek.

23 (9) Public meetings over several years have  
24 demonstrated strong, deep, and growing local sup-

1 port for a Cherry Valley National Wildlife Refuge,  
2 as demonstrated by the following:

3 (A) Area landowners, business and commu-  
4 nity leaders, media, and elected officials have  
5 consistently voiced their enthusiasm for a Cher-  
6 ry Valley National Wildlife Refuge.

7 (B) Numerous local communities and pub-  
8 lic and private conservation entities share com-  
9plementary goals for protecting Cherry Valley  
10 and are energetically conserving wildlife habitat  
11 and farmland. Along with State land-manage-  
12ment agencies and the National Park Service,  
13 these local entities represent potential strong  
14 partners for the United States Fish and Wild-  
15 life Service, and view a Cherry Valley National  
16 Wildlife Refuge as a complement to existing  
17 private, county, municipal, and State efforts.

18 (C) A number of local landowners have al-  
19 ready put their land into conservation ease-  
20 ments or other conservation arrangements.

21 (D) A voter-approved Monroe County Open  
22 Space Fund and a voter-approved Stroud  
23 Township municipal land conservation fund  
24 have contributed to many of these projects.

1           (10) Two federally owned parcels of land are  
2           contiguous to the area to be studied under this title  
3           as for acquisition and inclusion in a future Cherry  
4           Valley National Wildlife Refuge: The Delaware  
5           Water Gap National Recreation Area and a 700-acre  
6           segment of the Appalachian Trail owned by the Na-  
7           tional Park Service.

10          (a) **STUDY.**—The Secretary shall initiate within 30

12          to evaluate the fish and wildlife habitat and aquatic and  
13          terrestrial communities located in Northeastern Pennsyl-  
14          vania and identified on the map entitled, “Proposed Cher-  
15          ry Valley National Wildlife Refuge—Authorization Bound-  
16          ary”, dated February 24, 2005, for their potential acquisi-  
17          tion by the United States Fish and Wildlife Service  
18          through donation, exchange, or willing seller purchase and  
19          subsequent inclusion in a future Cherry Valley National  
20          Wildlife Refuge.

21          (b) **CONSULTATION.**—The Secretary, while con-  
22          ducting the study required under this section, shall consult  
23          appropriate State and local officials, private conservation  
24          organizations, major landowners and other interested per-  
25          sons, regarding the identification of eligible lands, waters,

2 for a national wildlife refuge and the determination of  
3 boundaries within which such acquisitions should be made.

4 (c) COMPONENTS OF STUDY.—As part of the study  
5 under this section the Secretary shall do the following:

6 (1) Determine if the fish and wildlife habitat

8 ated are suitable for inclusion in the National Wild-  
9 life Refuge System and management under the poli-  
10 cies of the National Wildlife Refuge System Admin-  
11 istration Act of 1966 (16 U.S.C. 668dd et seq.).

12 (2) Assess the conservation benefits to be  
13 gained from the establishment of a Cherry Valley  
14 National Wildlife Refuge including—

15 (A) preservation and maintenance of di-  
16 verse populations of fish, wildlife, and plants,  
17 including species listed as threatened species or  
18 endangered species;

19 (B) protection and enhancement of aquatic  
20 and wetland habitats;

21 (C) opportunities for compatible wildlife-  
22 dependent recreation, scientific research, and  
23 environmental education and interpretation;  
24 and

1 (D) fulfillment of international obligations  
2 of the United States with respect to fish, wild-  
3 life, and their habitats.

4 (3) Provide an opportunity for public participa-  
5 tion and give special consideration to views ex-  
6 pressed by local public and private entities regarding  
7 lands, waters, and interests therein for potential fu-  
8 ture acquisition for refuge purposes.

9 (4) The total area of lands, water, and interests  
10 therein that may be acquired shall not in the aggre-  
11 gate exceed 30,000 acres.

12 (d) REPORT.—The Secretary shall, within 12 months  
13 after date of the enactment of this Act, complete the study  
14 required by this section and submit a report containing  
15 the results thereof to the Committee on Resources of the  
16 House of Representatives and the Committee on Environ-  
17 ment and Public Works of the Senate. The report shall  
18 include—

19 (1) a map that identifies and prioritizes specific  
20 lands, waters, and interests therein for future acqui-  
21 sition, and that delineates an acquisition boundary,  
22 for a potential Cherry Valley National Wildlife Ref-  
23 uge;

1           (2) a cost estimate for the acquisition of all  
2 lands, waters, and interests therein that are appro-  
3 priate for refuge status; and

4           (3) an estimate of potentially available acquisi-  
5 tion and management funds from non-Federal  
6 sources.

7           (e) AUTHORIZATION OF APPROPRIATIONS.—There is  
8 authorized to be appropriated to the Secretary \$200,000  
9 to carry out the study.
