## A BILL

To establish a volunteer program and promote community partnerships for the benefit of national fish hatcheries and fisheries program offices.

1        *Be it enacted by the Senate and House of Representa-*  
2        *tives of the United States of America in Congress assembled,*

3        **SECTION 1. SHORT TITLE.**

4        This Act may be cited as the “National Fish Hatch-  
5        ery System Volunteer Act of 2006”.

6        **SEC. 2. FINDINGS AND PURPOSES.**

7        (a) FINDINGS.—Congress finds the following:

8                (1) The National Fish Hatchery System (in this  
9        Act referred to as the “System”)—

1 (A) consists of more than 60 hatcheries,  
2 seven fish technology centers, 9 fish health cen-  
3 ters, and other fisheries program offices;

4 (B) plays an integral role in the recovery  
5 of more than 50 threatened species and endan-  
6 gered species and the restoration of over 100  
7 native species;

8 (C) provides healthy fish populations that  
9 support recreational fishing opportunities, many  
10 of which are related to Federal water control  
11 structures; and

12 (D) works with over 250 partners to help  
13 mitigate the impacts of aquatic habitat loss and  
14 invasive species.

15 (2) The System faces many challenges, includ-  
16 ing aging facilities, some of which date back to the  
17 late 1800s, and maintenance of intensive infrastruc-  
18 tures such as wells, pumps, valves, pipes, filters,  
19 heaters, chillers, and treatment systems that must  
20 keep clean water moving 24 hours a day, 365 days  
21 a year.

22 (3) By encouraging volunteer programs and do-  
23 nations and fostering non-Federal partnerships with  
24 hatchery facilities, Federal funding for the hatch-  
25 eries can be supplemented.

1           (4) By encouraging hatchery educational pro-  
2           grams, public awareness of the resources of the Sys-  
3           tem and public participation in the conservation of  
4           aquatic resources can be promoted.

5           (b) PURPOSES.—The purposes of this Act are the fol-  
6           lowing:

7           (1) To encourage the use of volunteers to assist  
8           the United States Fish and Wildlife Service in the  
9           management of hatcheries within the System.

10          (2) To facilitate partnerships between the Sys-  
11          tem and non-Federal entities to promote public  
12          awareness of the resources of the System and public  
13          participation in the conservation of those resources.

14          (3) To encourage donations and other contribu-  
15          tions by individuals and organizations to the System.

23          of the National Fish Hatchery System. Such acceptance  
24          may be subject to the terms of any restrictive or affirma-
