

TWENTY-THREE RESCISSION PROPOSALS OF
BUDGETARY RESOURCES

MESSAGE

FROM

THE PRESIDENT OF THE UNITED STATES

TRANSMITTING

TWENTY-THREE RESCISSION PROPOSALS OF BUDGETARY RE-
SOURCES, TOTALING \$1.1 BILLION, PURSUANT TO 2 U.S.C.
683(a)(1)

FEBRUARY 6, 1995.—Message and accompanying papers referred to the
Committee on Appropriations and ordered to be printed.

U.S. GOVERNMENT PRINTING OFFICE

To the Congress of the United States:

In accordance with the Congressional Budget and Impoundment Control Act of 1974, I herewith report 23 rescission proposals of budgetary resources, totaling \$1.1 billion. These rescissions, when combined with other discretionary savings proposals contained in the FY 1996 Budget, will reduce FY 1995 budgetary resources by \$2.4 billion.

The proposed rescissions affect the Departments of Agriculture, Commerce, Education, Health and Human Services, Housing and Urban Development, Labor, and Transportation; the Environmental Protection Agency; the National Aeronautics and Space Administration; the Small Business Administration; the Chemical Safety and Hazard Investigation Board; and the National Science Foundation.

WILLIAM J. CLINTON.

THE WHITE HOUSE, *February 6, 1995.*

PUBLIC LAW 480 PROGRAM ACCOUNTS

Of the funds made available under this heading in Public Law 103-330, \$142,500,000 are rescinded of which: \$6,135,000 shall be from the amounts appropriated for ocean freight differential costs; \$92,500,000 shall be from the amounts appropriated for commodities supplied in connection with dispositions abroad pursuant to title III; and \$43,865,000 shall be from the amounts appropriated for the cost of direct credit agreements as authorized by the Agricultural Trade Development and Assistance Act of 1954, as amended, and the Food for Progress Act of 1985, as amended.

PROPOSED RESCISSION OF BUDGET AUTHORITY

JUSTIFICATION: This appropriation funds subsidy budget authority and administrative costs of the Title I loan program. The program provides for the sale of U.S. agricultural commodities to more advanced developing countries through government-to-government agreements. Sales are made through direct loans with highly concessional financing terms. This proposed rescission, in conjunction with the rescission of ocean freight grant funds in the grant account, totals \$60 million. The GAO has characterized this program as not fully meeting its objectives of economic growth and market development.

ESTIMATED PROGRAM EFFECT: The effect of the rescission in Title I is to force decisions as to the relative priority of country-programs for the remaining funds.

JUSTIFICATION: This appropriation funds the grant portion of Title I, and Titles II and III of P.L. 480. Recissions of \$43.8 million for subsidies in the program account and \$8.1 million proposed here for the ocean freight differential grant for Title I combine for a total of \$50 million. The program is considered less than fully effective in meeting agricultural market development goals.

This proposal also includes a \$82.5 million recission of P.L. 480 Title III funds. This is part of a proposed phased elimination of funding for Title III by FY 1997. The program has already declined from \$312 million in FY 1983 to \$187 million in FY 1986.

ESTIMATED PROGRAM EFFECT: The effect of the recission in Title I is to force decisions as to the relative priority of country-programs for the remaining funds. The effect of the recission on Title III is to speed up the elimination of the program, and shift from food aid to direct assistance.

OUTLAY EFFECT: (in thousands of dollars):

JUSTIFICATION: Funds were appropriated to this account for transfer to the Animal and Plant Health Inspection Service. This proposal reflects savings from the elimination of funding for a cattle tick eradication program in Puerto Rico conducted by the Animal and Plant Health Inspection Service. The eradication program has been ongoing since the early 1960s. The current eradication strategy does not appear to be effective, and, therefore, it is a low-priority activity.

JUSTIFICATION: The amount of \$26,903,000 is proposed for rescission from the Olympic Scholarships (\$1,000,000), the National Academy of Science, Space, and Technology (\$2,000,000), the National Early Intervention Scholarships and Partnerships (\$3,108,000), Law School Clinical Experience (\$14,820,000), the Eisenhower Leadership (\$4,000,000), and the Teacher Corps (\$1,875,000) programs. The Olympic Scholarships and the National Academy of Science, Space, and Technology programs are inappropriate uses and duplicative of other Federal programs. Budgetary constraints preclude the significant investment of funds that would be required to achieve appropriate results under the National Early Intervention Scholarships and Partnerships program, which in any case already duplicates the Federal TRIO programs, which provide support to low-income disadvantaged individuals to pursue and complete college. The Law School Clinical Experience program is more appropriately funded through non-Federal resources and has fulfilled its original purpose. The Eisenhower Leadership program is poorly focused and duplicative as is the overly-complex Teacher Corps program. The elimination of these programs is consistent with the National Performance Review.

ESTIMATED PROGRAM EFFECT: No material effect. These programs are duplicative of other programs, are more appropriately funded from other sources or are an inappropriate Federal role.

JUSTIFICATION: This program provides direct, low-interest-rate loans to postsecondary educational institutions for construction, reconstruction, and renovation of housing and educational facilities. This proposal reflects savings derived from not making new loans. In the FY 1995 appropriations act, \$10 million in new loans was authorized, but only \$199 thousand was provided for loan subsidies. Based on current subsidy calculations, the subsidy provided would support only \$846 thousand in new loans. The proposal would rescind the subsidy and repeal the loan authority rather than restart a terminated program and issue so few new loans. The National Performance Review recommended the elimination of this loan program because providing funds to institutions of higher education for renovation and construction supplants State, local, and private support.

ESTIMATED PROGRAM EFFECT: No material effect. Institutions already provide the resources for this activity in far greater amounts.

JUSTIFICATION: The amount of \$750,000 is proposed for rescission from the 21st Century Community Learning Center program. The entire amount appropriated for the program in FY 1995 is proposed for rescission because separate funding for this activity is not needed. Other programs provide elementary and secondary school students and their families better access to such services.

ESTIMATED PROGRAM EFFECT: No material effect. States would use other funding sources, including other Elementary and Secondary Education Act programs and grants, for activities that provide similar benefits.

JUSTIFICATION: This proposal reflects savings from the elimination of the Library Literacy and the Library Education and Training discretionary grant programs. The Library Literacy program provides small (\$35 thousand or less) grants to support the involvement of State and local public libraries in adult literacy programs. These activities may also be supported under the Public Library Services program, a State formula grant program that permits States to direct funds where services are most needed. The Library Education and Training program supports awards, primarily to institutions of higher education, to provide training or retraining to prepare individuals for service in all types of libraries. No shortages of trained librarians has been demonstrated. Eliminating these programs is consistent with the recommendations of the National Performance Review.

ESTIMATED PROGRAM EFFECT: Similar activities to the Library literacy program would be supported under the Public Library Services program and from State and local sources. Persons seeking training or retraining in library and information science would be able to seek other student financial assistance for such training.

JUSTIFICATION: This proposal reflects savings from reductions in the following activities:

Lead-based paint. This program supported lead-based paint removal efforts targeted primarily at privately owned and operated multifamily housing. Much progress has been made in the fight against lead poisoning, and abatement efforts will continue where the problem still exists, primarily in low-income housing. In the future, allocation of funds for removal efforts will rest with State and local governments under the new Affordable Housing Performance Funds program.

Multifamily Preservation. The preservation program was intended to ensure the availability of low-income rental housing by preventing project owners from prepaying mortgages and converting the units to other uses. The program compensates owners for the loss of the prepayment option through preservation incentives. While well-intended, this program is a very inflexible and costly method of preserving low-income housing. In addition to overly generous incentives, there is a lack of prepayment threat in most areas of the country. The Administration and HUD are proposing program reforms that would reduce both the number of eligible projects and the level of payments. The recession affects funds in excess of needs under the reformed program.

Choice in Management. The Choice in Management program permits public housing residents to remove a poorly performing management team (Public Housing Authority) and replace it with a private sector manager. The program has never been implemented. Under HUD's proposed reversion, need for this program is obviated. The monopoly of poor performing PHAs will be broken up, and they will have to compete for tenants. Tenants will be able to change managers by "voting with their feet" (i.e., moving to apartments of their choosing).

Family Unification. The Family Unification program awarded housing certificates for families who are in danger of losing their children because of inadequate housing. Regular preferences for certificates should take care of this problem without the need for earmarks.

Rescission Proposal No. R95-13

Lease Adjustments. Lease adjustments is a small program that provides inflation adjustments on pre-1974 rental assistance contracts. These funds are in excess of anticipated needs.

Section 8 Amendments. These amendments provide additional funds for multi-year Section 8 contracts. These funds are in excess of anticipated needs.

Section 8 Recaptures. The recaptures under the Section 8 program are normally recycled to other recipients. This rescission would return these funds to the Treasury.

ESTIMATED PROGRAM EFFECT: This proposed rescission would not affect the Housing Programs' ability to accomplish its mission.

JUSTIFICATION: This proposal reflects savings from the proposed elimination of the Congregate services program. The Cranston-Gonzalez National Housing Act of 1990 authorized the Secretary of Housing and Urban Development to enter into five-year contracts for congregate support services (meals, transportation, etc.) for the elderly and disabled. Other funding mechanisms exist that can be utilized to provide similar services to elderly and handicapped persons, such as the Community development block grant program and the Elderly service coordinator program. The need for these services can be prioritized at the State/local level, and the appropriate resources can be made available to fit individual circumstances.

ESTIMATED PROGRAM EFFECT: The funding for the "new" congregate services program would not be implemented until the "new" program and the "older" congregate services programs become eligible for funding under HUD's new grants to States and localities.

JUSTIFICATION: The Bureau of Labor Statistics (BLS) produces employment and unemployment data for 11 large states, New York City, and the Los Angeles-Long Beach area directly from the Current Population Survey (CPS). For other areas, BLS produces monthly estimates using regression analyses that combine information from the CPS, Current Employment Survey, and unemployment records. This proposal reflects savings from continuing the practice of obtaining the monthly employment and unemployment data from the original 11 large states instead of expanding the CPS to allow employment and unemployment data for Georgia and Virginia to be obtained directly from the CPS. This rescission proposal would allow BLS to continue the Direct Use States Program at the FY 1994 level.

ESTIMATED PROGRAM EFFECT: This number of Direct Use States would not rise from 11 to 13. Monthly unemployment data would continue to be produced for Georgia and Virginia under the same method used in the 37 other non-direct use States.

JUSTIFICATION: This proposal reflects savings from the recission of remaining unobligated balances of contract authority authorized for the Payments to Air Carriers program. Termination is warranted because the communities that now receive subsidized air service through this program are within reasonable driving distance of other airports or other modes of transportation and because the per passenger subsidy cost is not merited.

JUSTIFICATION: This account funds the administrative expenses and non-credit activities of the Small Business Administration. This reflects savings from the elimination of grants to States for contracting the planting of trees. The Small Business Administration, unlike either the Department of Agriculture or the Department of the Interior, does not have the technical expertise needed to administer this program adequately. In addition, this program duplicates the urban tree planting program of the Forest Service.

JUSTIFICATION: This account funds the activities of the National Science Foundation (NSF), Academic research infrastructure appropriation. This proposal reflects the Administration's decision not to expand the NSF's program of support of existing infrastructure modernization efforts (buildings and instrumentation). NSF will continue its focus on funding people and research.
