

AMENDMENTS TO THE FISCAL YEAR 1996
APPROPRIATIONS REQUESTS

COMMUNICATION

FROM

THE PRESIDENT OF THE UNITED STATES

TRANSMITTING

AMENDMENTS TO THE FISCAL YEAR 1996 APPROPRIATIONS REQUESTS FOR THE DEPARTMENTS OF AGRICULTURE, ENERGY, HEALTH AND HUMAN SERVICES, JUSTICE, LABOR, AND TRANSPORTATION; THE ENVIRONMENTAL PROTECTION AGENCY; THE INFORMATION SECURITY OVERSIGHT OFFICE; THE FEDERAL TRADE COMMISSION; THE INTERSTATE COMMERCE COMMISSION; AND THE NATIONAL ARCHIVES AND RECORDS ADMINISTRATION, PURSUANT TO 31 U.S.C. 1106(b)

MAY 2, 1995.—Referred to the Committee on Appropriations and ordered to be printed

U.S. GOVERNMENT PRINTING OFFICE

THE WHITE HOUSE,
Washington, May 2, 1995.

THE SPEAKER OF THE HOUSE OF REPRESENTATIVES.

SIR: I ask the Congress to consider amendments to the FY 1996 appropriations requests for the Departments of Agriculture, Energy, Health and Human Services, Justice, Labor, and Transportation; the Environmental Protection Agency; the Information Security Oversight Office; the Federal Trade Commission; the Interstate Commerce Commission; and the National Archives and Records Administration.

Included in this transmittal are budget amendments totaling \$3.1 billion in savings from our effort to Reinvent Government. These savings are assumed in the FY 1996 budget. The budget amendments submitted for consideration today relate to the establishment of Performance Partnerships with States and local governments by the Departments of Agriculture and Health and Human Services, and the Environmental Protection Agency; the reinvention of the Departments of Energy and Transportation; and the termination of the Interstate Commerce Commission.

In addition, I am requesting that the Information Security Oversight Office be moved to the National Archives and Records Administration.

This transmittal also contains three FY 1996 amended appropriations requests for the Legislative Branch. As required by law, appropriations requests for the Legislative Branch are transmitted without change.

The details of these actions are set forth in the enclosed letter from the Director of the Office of Management and Budget. I concur with her comments and observations.

Sincerely,

WILLIAM J. CLINTON.

Enclosure.

Estimate No. 9
104th Congress, 1st Session

EXECUTIVE OFFICE OF THE PRESIDENT
OFFICE OF MANAGEMENT AND BUDGET
WASHINGTON, D.C. 20503

THE DIRECTOR

May 2, 1995

The President

The White House

Submitted for your consideration are amendments to your FY 1996 appropriations requests now pending before Congress. This is the second package of amendments to implement proposals included in Phase II of the Administration's Reinventing Government initiative. The savings of \$3.1 billion in FY 1996 budget authority that would be realized by these proposals are assumed in your FY 1996 Budget. Over a five-year period -- from FY 1996 to FY 2000 -- the effect of the budget amendments in this package would be to reduce budget authority by \$7.9 billion.

As described in the enclosures, these amendments would provide the following:

- o Department of Agriculture. The proposals would consolidate funding for 14 rural development programs into the Rural Development Performance Partnerships Program, which would provide greater flexibility to tailor financial assistance to applicant needs. The funding would be allocated to State Directors for their priority-setting on a State-by-State basis.
- o Department of Energy. The proposed amendment would allow the Secretary of Energy to draw down and sell up to seven million barrels of oil from the Strategic Petroleum Reserve to fund decommissioning of the Weeks Island site and operation and maintenance activities of other Strategic Petroleum Reserve facilities.
- o Department of Health and Human Services. The proposals would consolidate 108 activities within the Public Health Service into 16 Performance Partnerships and Cluster Groups. This initiative would consolidate funding streams, create funding incentives to reward desirable results, and reduce micromanagement and wasteful paperwork.

- o Department of Transportation. The proposed amendments would implement two parts of your initiative to reinvent the Department of Transportation. The first is the consolidation of the Department's infrastructure-related programs into a single unified program. This consolidation would shift programs to State and local decision-making and provide more flexibility in the use of grant funds.

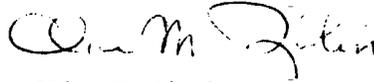

The second is the reorganization of the Department into three major areas: intermodal transportation, aviation, and the Coast Guard. The reorganization will eliminate duplication and barriers to implementing broad-based, flexible, and well-balanced transportation policy and programs. Enclosed is a list of the appropriations accounts proposed for inclusion in these areas.
- o Environmental Protection Agency. The proposed amendment would give the EPA Administrator authority to allow States and Indian tribes to consolidate numerous existing media-specific (e.g., air, water) or multimedia grants into one or more Performance Partnerships grants.
- o Interstate Commerce Commission. Amendments are included that reflect the phase-out and termination of the Interstate Commerce Commission and the transfer of relevant areas of oversight to the Departments of Justice, Labor, and Transportation, and the Federal Trade Commission.

In addition, a request is included that would establish the Information Security Oversight Office (ISOO) as a separate budget account within the National Archives and Records Administration, rather than as a separate independent agency as proposed in the FY 1996 Budget. The statutory authority of the National Archives for assisting agencies in managing their records is a logical and natural tie-in with ISOO's responsibilities to direct and instruct agencies in classifying documents and records. The proposed budget totals would not be affected by this request.

I have carefully reviewed these proposals and am satisfied that they are needed at this time. Therefore, I join the heads of the affected departments and agencies in recommending that these budget amendments be transmitted to the Congress.

Included in this transmittal are three budget amendments for the Legislative Branch. As required by law, appropriations requests submitted by the Legislative Branch are transmitted without change.

Sincerely,

A handwritten signature in black ink, appearing to read "Alice M. Rivlin". The signature is fluid and cursive, with the first name "Alice" and the last name "Rivlin" being the most prominent parts.

210	Rural development performance partnerships program	---	\$1,049,974,000	\$1,049,974,000
-----	--	-----	-----------------	-----------------

(Insert the following appropriations language under the above heading:)

For the cost of direct loans, loan guarantees, and grants, as authorized by 7 U.S.C. 1926, 1928, and 1932, 16 U.S.C. 2106, 42 U.S.C. 1485, 1490(a), and 9812, \$988,100,000, to remain available until expended, of which \$90,602,000 shall be for activities of the Rural Housing and Community Development Service, including new construction of section 515 rental housing, rental assistance agreements entered into for new construction, direct loans and loan guarantees for community facilities, and rural community fire protection grants; of which \$785,181,000 shall be for activities of the Rural Utilities Service, including direct loans and grants for rural water and waste disposal and solid waste management grants; and of which \$112,315,000 shall be for activities of the Rural Business and Cooperative Development Service, including direct loans and loan guarantees for business and industry assistance, direct loans for intermediary lending, and grants for rural business enterprise, rural technology and cooperative development, and local technical assistance and planning; Provided, That the costs of direct loans and loan guarantees, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974; Provided further, That of the total amount appropriated, \$42,480,000 shall be for empowerment zones and enterprise communities, as authorized by Public Law 103-66; Provided further, That if such funds are not obligated for empowerment zones and enterprise communities by June 30, 1996, they shall remain available

for other authorized purposes under this head: Provided further, That rental assistance agreements entered into shall be funded for a five-year period, although the life of such agreements may be extended to utilize fully amounts obligated: Provided further, That, for the amounts appropriated for the Rural Housing and Community Development Service, the Rural Utilities Service, and the Rural Business and Cooperative Development Service, the Secretary is authorized to transfer not to exceed 10 percent of the amounts appropriated for each Service between the Services to be used for activities authorized under this head.

In addition, for administrative expenses necessary to carry out direct loans, loan guarantees and grants, \$61,874,000, of which \$11,114,000 shall be transferred and merged with "Rural Housing and Community Development Service, Salaries and Expenses," \$17,790,000 shall be transferred and merged with "Rural Utilities Service, Salaries and Expenses," and \$32,119,000 shall be transferred and merged with "Rural Business and Cooperative Development Service, Salaries and Expenses."

This proposal is part of the second phase of the Administration's Reinventing Government initiative. As proposed in the FY 1996 Budget, this amendment would consolidate funding for 14 rural development programs into the Rural Development Performance Partnerships program, which would provide greater flexibility to tailor financial assistance to applicant needs. The funding would be allocated to USDA State Directors for their priority-setting on a State-by-State basis. These Directors would work in consultation with State, local, and tribal officials, including the State Rural Development Councils, to direct funds to the highest rural economic development priorities in each State. USDA State Directors would be authorized to transfer up to 25 percent of partnership funds allocated to their State among the participating programs, with up to 10 percent of funds allowed to be re-allocated nation-wide.

These funds were included in the FY 1996 Budget as an item to be transmitted to the Congress at a later date. The proposed budget totals would not be affected.

This proposal is part of the second phase of the Administration's Reinventing Government initiative. The FY 1996 Budget proposed to combine the funding of 14 existing rural development programs into the USDA Rural Development Performance Partnerships program. The Solid Waste Management Grants program is one of these 14 programs. The Rural Development Performance Partnerships program would increase the flexibility and effectiveness by which Federal funding would be used to meet State-level rural economic development goals. USDA State Directors, in consultation with State and local officials and the State Rural Development Councils, would be authorized to transfer up to 25 percent of partnership funds allocated to their State among the participating programs, with up to 10 percent of funds allowed to be re-allocated nation-wide.

This reduction proposal was included in the FY 1996 Budget as an item to be transmitted to the Congress at a later date. The proposed budget totals would not be affected.

This proposal is part of the second phase of the Administration's Reinventing Government initiative. The FY 1996 Budget proposed to combine the funding of 14 existing rural development programs into the USDA Rural Development Performance Partnerships program. The Rural Water and Waste Disposal Loans program, estimated to provide \$881 million in direct loans for the construction and repair of rural water and wastewater disposal systems, is one of these 14 programs. The Rural Development Performance Partnerships program would increase the flexibility and effectiveness by which Federal funding would be used to meet State-level rural economic development goals. USDA State Directors, in consultation with State and local officials and the State Rural Development Councils, would be authorized to transfer up to 25 percent of partnership funds allocated to their State among the participating programs, with up to 10 percent of funds allowed to be re-allocated nation-wide.

This proposal is part of the second phase of the Administration's Reinventing Government initiative. The amendment would reduce the general fund appropriations request for this account by \$15,517,000. This funding would be included in the new Rural Development Performance Partnerships program for rental assistance grants associated with the construction of new multi-family housing, which is also part of the new Rural Performance Partnerships program. The Rural Development Performance Partnerships program would increase the flexibility and effectiveness by which Federal funding would be used to meet State-level rural economic development goals. USDA State Directors, in consultation with State and local officials and the State Rural Development Councils, would be authorized to transfer up to 25 percent of partnership funds allocated to their State among the participating programs, with up to 10 percent of funds allowed to be re-allocated nation-wide.

This proposal is part of the second phase of the Administration's Reinventing Government initiative. The FY 1996 Budget proposed to combine the funding of 14 existing rural development programs into the USDA Rural Development Performance Partnerships program. The Rural Community Facility direct loans and loan guarantee programs are two of these 14 programs. It is estimated that these programs would provide \$250 million in direct loans and \$100 million in loan guarantees for the construction and improvement of community facilities providing essential services in rural areas. The Rural Development Performance Partnerships program would increase the flexibility and effectiveness by which Federal funding would be used to meet State-level rural economic development goals. USDA State Directors, in consultation with State and local officials and the State Rural Development Councils, would be authorized to transfer up to 25 percent of partnership funds allocated to their State among the participating programs, with up to 10 percent of funds allowed to be re-allocated nation-wide.

(Insert the following appropriations language under the above heading:)

Upon enactment of legislation authorizing the sale of oil from the Strategic Petroleum Reserve (SPR) and the establishment of the SPR Decommissioning Fund from the proceeds of such sale, the Secretary shall draw down and sell up to 7 million barrels of oil from the Strategic Petroleum Reserve and deposit the proceeds into the SPR Decommissioning Fund. Provided, That these amounts shall remain available until expended for activities related to the decommissioning of the Weeks Island Strategic Petroleum Reserve site, removal and transfer of the Weeks Island site oil inventory, and other necessary Strategic Petroleum Reserve facility operation and maintenance expenses: Provided further, That the proceeds from the sale shall be included in the budget baseline required by the Balanced Budget and Emergency Deficit Control Act of 1985 and shall be counted as an offset to discretionary budget authority and outlays for the purposes of section 251(a)(7) of that Act.

This proposal is part of the second phase of the Administration's Reinventing Government initiative. The proposal, which is contingent upon enactment of authorization legislation, would allow the Secretary of Energy to draw down and sell up to seven million barrels of oil from the Strategic Petroleum Reserve to fund removal of oil and decommissioning of the Weeks Island site and operating and maintenance activities of other Strategic Petroleum Reserve facilities.

This proposal was included in the FY 1996 Budget as an item to be transmitted to the Congress at a later date. The proposed budget totals would not be affected.

Provided further, That upon enactment of authorization to establish Performance Partnership and Cluster Grant Consolidations, the appropriation for this account shall be reduced by \$6,000,000.

This proposal is part of the second phase of the Administration's Reinventing Government initiative. The proposal reflects the consolidation of 50 health resources and services activities into nine clusters. The initiative will consolidate funding streams, create funding incentives to reward desirable results, and reduce micromanagement and wasteful paperwork, which will produce administrative savings of \$6 million. These consolidations are contingent upon enactment of authorization legislation.

This reduction proposal was included in the FY 1996 Budget as an item to be transmitted to the Congress at a later date. The proposed budget totals would not be affected.

(In the appropriations language under the above heading, insert the following immediately before the period at the end of the paragraph:)

: Provided further, That upon enactment of authorization to establish Performance Partnerships, the appropriation for this account shall be reduced by \$6,000,000

This proposal is part of the second phase of the Administration's Reinventing Government initiative. The proposal reflects the consolidation of public health activities into three Performance Partnerships. The initiative will consolidate funding streams, create funding incentives to reward desirable results, and reduce micromanagement and wasteful paperwork, which will produce administrative savings of \$6 million. The consolidation is contingent upon enactment of authorization legislation.

This reduction proposal was included in the FY 1996 Budget as an item to be transmitted to the Congress at a later date. The proposed budget totals would not be affected.

i. Provided, That upon enactment of authorization to establish Performance Partnership and Cluster Grant Consolidations, the appropriation for this account shall be reduced by \$3,000,000.

This proposal is part of the second phase of the Administration's Reinventing Government initiative. The proposal reflects the consolidation of mental health and substance abuse activities into two Performance Partnerships and two Training and Demonstration Clusters. The initiative will consolidate funding streams, create funding incentives to reward desirable results, and reduce micromanagement and wasteful paperwork, which will produce administrative savings of \$3 million. The consolidation of mental health and substance abuse activities into two Performance Partnerships and two Training and Demonstration Clusters is contingent upon enactment of authorization legislation.

This reduction proposal was included in the FY 1996 Budget as an item to be transmitted to the Congress at a later date. The proposed budget totals would not be affected.

(Insert the following immediately before the period at the end of the section:)

: Provided, That upon enactment of authorization to amend title 49, United States Code, regarding the organization of the Department of Transportation, this section shall be repealed

This proposal is part of the second phase of the Administration's Reinventing Government initiative. This proposal would delete the reference to the Federal Highway Administration, Federal Transit Administration, and Federal Railroad Administration consistent with legislation to reorganize the Department of Transportation. This proposal is contingent upon enactment of authorization for the Department of Transportation reorganization.

This proposal was approved after the transmittal of the FY 1996 Budget. The totals proposed in the budget would not be affected.

: Provided, That upon enactment of authorization to amend title 49, United States Code, regarding the organization of the Department of Transportation, this section shall be repealed

This proposal is part of the second phase of the Administration's Reinventing Government initiative. This proposal would delete the proposed provision since it is now included with language for the affected account and therefore is no longer necessary. This proposal is consistent with legislation to reorganize the Department of Transportation. This proposal is contingent upon enactment of authorization for the Department of Transportation reorganization.

This proposal was approved after the transmittal of the FY 1996 Budget. The totals proposed in the budget would not be affected.

778	<u>Section 329</u> (Insert the following immediately after Section 328:) <u>Section 329. Upon enactment of authorization to amend title 49, United States Code, regarding the organization of the Department of Transportation, existing budgetary resources shall be transferred to reflect the new organizational structure, pursuant to 31 U. S. C. 1531.</u>	---	Language	---

This proposal is part of the second phase of the Administration's Reinventing Government initiative. This proposal would provide transfer authority to the Secretary of Transportation to allow for unforeseen adjustments in appropriations needed to reflect the reorganization of the Department of Transportation. This proposal is contingent upon enactment of authorization for the Department of Transportation reorganization.

This proposal was approved after the transmittal of the FY 1996 Budget. The totals proposed in the budget would not be affected.

882	Administrative provisions	---	Language	---
-----	---------------------------	-----	----------	-----

(Delete the brackets around the above heading and insert the following new paragraph:)

Beginning in fiscal year 1996 and each fiscal year thereafter, and notwithstanding any other provision of law, the Administrator is authorized to make grants annually, subject to such terms and conditions as the Administrator shall establish, to any State or federally recognized Indian tribe for multimedia or single media pollution prevention, control, and abatement and related environmental activities, at the request of the Governor or the tribe, from funds appropriated under the heading, "Abatement, Control, and Compliance," in any such year.

This proposal is part of the second phase of the Administration's Reinventing Government initiative. The proposal would give the EPA Administrator authority to allow States and Indian tribes to consolidate numerous existing media-specific (e.g., air, water) or multimedia grants into one or more Performance Partnership grants. Such grants would enable States and tribes to reallocate funds among grant programs in order to reflect local priorities, and to submit a single grant application instead of multiple applications.

Enactment of this proposal in FY 1996 is needed to ensure savings in the Abatement, control, and compliance and Program and research operations accounts in FY 1997, as reflected in the FY 1996 Budget. The proposed FY 1996 budget totals would not be affected.

998	Salaries and expenses	\$59,587,000	\$24,000	\$59,611,000

(In the appropriations language under the above heading, insert the following immediately before the period at the end of the paragraph:)

1. Provided further, That upon enactment of authorization to terminate operations of the Interstate Commerce Commission, an additional \$24,000 shall be available for activities transferred to the Federal Trade Commission

This proposal is part of the second phase of the Administration's Reinventing Government initiative. The proposal reflects the termination of the Interstate Commerce Commission and the transfer of responsibility for the handling of consumer complaints against movers of household goods to the Federal Trade Commission. The transfer of activities is contingent upon enactment of authorization legislation.

This proposal was included in the FY 1996 Budget as an item to be transmitted to the Congress at a later date. The proposed budget totals would not be affected.

(In the appropriations language under the above heading, insert the following immediately before the period at the end of the paragraph:)

Provided further, That upon enactment of authorization to terminate operations of the Interstate Commerce Commission, the appropriation for this account shall be reduced by \$4,358,000

This proposal is part of the second phase of the Administration's Reinventing Government initiative. The proposal reflects the phase-out and termination of the Interstate Commerce Commission, made possible through the transfer of relevant areas of oversight to the Departments of Transportation, Justice, and Labor, and the Federal Trade Commission. The termination of the Interstate Commerce Commission is contingent upon enactment of authorization legislation.

This reduction proposal was included in the FY 1996 Budget as an item to be transmitted to the Congress at a later date. The proposed budget totals would not be affected.

	<u>For necessary expenses of the Information Security Oversight Office. \$1,482,000.</u>			
INFORMATION SECURITY OVERSIGHT OFFICE				
1000	Information security oversight office	\$1,482,000	-\$1,482,000	---
	(Delete the appropriations language under the above heading.)			

These amendments would establish the Information Security Oversight Office (ISOO) as a separate account within the National Archives and Records Administration (NARA), rather than as a separate independent agency.

NARA, established as an independent agency by Public Law 98-497, enacted October 19, 1984, is responsible for: (1) the establishment of records management standards and procedures to ensure accurate and complete documentation of the policies and transactions of the Federal Government; (2) the control of the quality and quantity of Federal records; and, (3) the preservation and disposal of these records. NARA also provides guidance and assistance to Federal agencies to ensure adequate and proper documentation by promulgating standards, procedures, and guidelines with respect to records management. NARA systematically reviews classified records and Presidential papers or records for declassification in accordance with specified guidelines.

ISOO is responsible for the development and issuance of government-wide directives and instructions regarding information classified as "national security information." The statutory authority of the National Archives for assisting agencies in managing their records is a logical and natural tie-in with ISOO's responsibilities to direct and instruct agencies in classifying documents and records.

The proposed budget totals would not be affected by these amendments.

LEGISLATIVE BRANCH

SENATE

Contingent Expenses of the Senate

14	Senators' official personnel and office expense account	\$222,426,000	\$237,000	\$222,663,000

This amendment is necessary due to a re-estimate of the U.S. population. The funds that each Senator receives for official personnel and office expenses is based on the population of each Senator's State. This proposal would increase FY 1996 outlays by \$237 thousand.

This amendment would: (1) provide staff to carry out the additional cost estimating and analytical duties required by S. 1, the Unfunded Mandates Reform Act of 1995; and, (2) clarify the Director's authority to exclude certain Congressional Budget Office employees from coverage under the Federal Employees' Retirement System. This proposal would increase FY 1996 outlays by \$2.4 million.

LIBRARY OF CONGRESS

1996 Budget Appendix Page	Heading	1996 Budget Request Pending	1996 Proposed Amendment	1996 Revised Request
24	Salaries and expenses	\$220,711,000	\$3,000,000	\$223,711,000

(In the appropriations language under the above heading, delete "\$228,580,000" and substitute \$231,580,000.)

The Library of Congress plans to create a National Digital Library by digitizing five million items from its core American history collections by the year 2000. The National Digital Library is the outgrowth of the successful, congressionally supported, five-year American Memory project in which 210,000 items were digitized and proven of educational value in 44 test sites around the United States. The National Digital Library initiative has raised \$14.5 million of private money so far and is expected to include unique collections from other institutions -- making available to schools, libraries, and individuals a core documentary record of American history and culture. With an additional \$3 million in appropriations each year for the next five years, the Library is optimistic that the private sector will fund the additional \$30.5 million needed to reach the total \$60 million target.

This proposal would increase FY 1996 outlays by \$2.5 million.
