[Estimate No. 2, 107th Cong., 1st Sess.]

EXECUTIVE OFFICE OF THE PRESIDENT,
OFFICE OF MANAGEMENT AND BUDGET,
Washington, DC, January 19, 2001.

The PRESIDENT,
The White House.

Submitted for your consideration are requests to make available previously appropriated contingent emergency funds for the Departments of Agriculture (USDA), the Interior (DOI), and the Treasury, as well as the Federal Emergency Management Agency (FEMA), and the Legislative Branch. All of the emergency funding provided was made contingent upon your submission of a budget request to the Congress that includes designation of the amount requested as an emergency requirement. Your approval of these requests would make available \$4.8 billion for a variety of purposes, described below.

P.L. 106-387, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2001, provided a total of \$4.2 billion in contingent emergency funding for agricultural disaster assistance and assistance to low-income citizens. To date, you have designated and made available \$1.4 billion of that amount. The funds requested in this transmittal would make available the remaining \$2.8 billion, and will support the Nation's farmers, ranchers, rural communities, and low-income populations, through support for land conservation efforts, crop and animal loss reimbursements, livestock disease control programs, loan forgiveness, and nutrition assistance. In addition, P.L. 106-554, the consolidated Appropriations Act, 2001, provided \$0.05 billion in contingent emergency funding for USDA. Specifically, this emergency funding will support reimbursement for livestock losses due to bovine tuberculosis, increased funding for the Environmental Quality Incentives Program, and expansion of Federal meals programs for children upon your designation of the entire \$0.05 billion provided for these purposes as emergency requirements.

P.L. 106-291, the Department of the Interior and Related Agencies Appropriations Act, 2001, provided a total of \$1.6 billion in contingent emergency funding. To date, you have made available \$0.01 billion of this amount. This transmittal includes requests for an additional \$1.3 billion to be made available to USDA and DOI to address wildland fire management. These funds will be used to continue fire suppression operations, rehabilitate lands destroyed by wildfires, reduce the presence of hazardous fuels in sensitive areas, and assist rural firefighting efforts.

P.L. 106-377, the Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 2001, provided \$1.3 billion in contingent emergency funding to

support the disaster relief operations of FEMA, none of which has been released to date. Since you recently declared disaster areas in Oklahoma and Arkansas due to the severe damage caused by winter storms there, FEMA has been working with State and local authorities to clear snow and ice and assist residents of the affected areas. This request would make available \$0.6 billion for this and other disaster relief activities.

P.L. 106-554, the Consolidated Appropriations Act, 2001, also provided contingent emergency funding for the Legislative Branch and the Department of the Treasury. Specifically, \$0.02 billion in emergency funding was provided to support security enhancements at the Capitol building, improvements to House office buildings, and counter-terrorism efforts associated with national special security events. This request would make available the entire \$0.02 billion for these purposes.

Resource requirements for the Department of the Treasury's counter-terrorism efforts noted above have been estimated using the best available information to date. Actual expenditures incurred for the Inauguration, the State of the Union and the 2002 Winter Olympics may differ from the original level sought from the Counter-Terrorism Fund. The Department of the Treasury will work with OMB to monitor this Fund to ensure that law enforcement bureaus are reimbursed for actual expenses and that any excess amounts are held in reserve to meet unforeseen needs related to counter-terrorist activities. Future transmittals to the Congress seeking release of funds from the Counter-Terrorism Fund will provide further details on actual fund expenditures.

I recommend that you designate the above requests totaling \$4.8 billion, which are detailed in the enclosure to this letter, as emergency requirements in accordance with section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended. No further congressional action will be required.

This transmittal also contains a revision to the amount of emergency funding that you made available on December 4, 2000, for USDA's Forest Service, State and Private Forestry account. This revision is listed in the enclosure to this letter.

I have carefully reviewed these proposals and am satisfied that they are necessary at this time. Therefore, I join the heads of the affected Departments and agencies in recommending that you make the requested funds available by signing the enclosed letter to the Speaker of the House of Representatives.

Sincerely,

JACOB J. LEW, *Director*.

Enclosure.
