JURISDICTION

The Legislative Reorganization Act of 1946 (Public Law 601 of the Seventy-ninth Congress, approved Aug. 2, 1946, amended by Public Law 91-510 approved Oct. 26, 1970) in Part I created the standing committees of the Senate and provided that the Committee on Armed Services should consist of 13 Senators; amended by S. Res. 18 of the 82d Congress (1953) to consist of 15 Senators; amended by S. Res. 24 of the 86th Congress (1959) to consist of 17 Senators; amended by S. Res. 11 of the 90th Congress (1967) to consist of 18 Senators; amended by P.L. 91-510 (1970) to consist of 15 Senators; amended by S. Res. 15, of the 92d Congress to consist of 16 Senators; amended by S. Res. 10 of the 93d Congress (1973) to consist of 15 Senators; amended by S. Res. 17 of the 94th Congress (1975) to consist of 16 Senators; further amended by S. Res. 4, and subsequently by S. Res. 82, 95th Congress (1977) to consist of 18 Senators; further amended by S. Res. 14, 100th Congress (1987) to consist of 20 Senators, further amended by S. Res. 130, 103d Congress (1993) to consist of 22 Senators; further amended by S. Res. 14, 104th Congress (1995) to consist of 21 Senators; and further amended by S. Res. 9, 105th Congress (1997) to consist of 18 Senators; and that to said committee shall be referred all proposed legislation, messages, petitions, memorials and other matters relating to the following subjects (Rule XXV(c) (1) and (2) of the Standing Rules of the Senate):

- (1) 1. Aeronautical and space activities peculiar to or primarily associated with the development of weapons systems or military operations.
2. Common defense.
3. Department of Defense, the Department of the Army, the Department of the Navy, and the Department of the Air Force, generally.
4. Maintenance and operation of the Panama Canal, including administration, sanitation, and government of the Canal Zone.
5. Military research and development.
6. National security aspects of nuclear energy.
7. Naval petroleum reserves, except those in Alaska.
8. Pay, promotion, retirement, and other benefits and privileges of members of the Armed Forces, including overseas education of civilian and military dependents.
9. Selective service system.
10. Strategic and critical materials necessary for the common defense.

(2) Such committee shall also study and review, on a comprehensive basis, matters relating to the common de-

fense policy of the United States, and report thereon from time to time.

*Date of appointment to Senate Committee on Armed Services

The Senate Committees on Military Affairs; on the Militia; and Naval Affairs were established on December 10, 1816. The Committee on the Militia was merged with the Committee on Military Affairs in 1858 to form the Military Affairs and Militia Committee. However, in 1872 the Committee dropped "Militia" from its name. The Military Affairs and Naval Affairs Committees existed until 1947 when they were combined by the Legislative Reorganization Act of 1946 into a new standing committee, the current Armed Services Committee.

RELATIONSHIP OF ANNUAL AUTHORIZATION TO DEPARTMENT OF DEFENSE APPROPRIATIONS

History of Section 114, Title 10, United States Code

The jurisdiction of the committee so far as specific annual authorizations are concerned was increased significantly in 1959 by the enactment of section 412(b) of Public Law 86-149 which required annual congressional authorization of appropriations for the procurement of aircraft, missiles and naval vessels. That law was amended and expanded as follows:

In 1962 (Public Law 88-436) to require similar authorization of appropriations for research, development, test, or evaluation associated with aircraft, missiles and naval vessels;

In 1963 (Public Law 88-174) to require similar authorization of appropriations for all research, development, test, or evaluation carried on by the Department of Defense;

In 1965 (Public Law 89-37) to require authorization of appropriations for the procurement of tracked combat vehicles;

In 1967 (Public Law 90-168) to require annual authorization of the personnel strengths of each of the Selected Reserves of the Reserve components as a prior condition for the appropriation of funds for the pay and allowances for the Reserve components;

In 1969 (Public Law 91-121) to require authorization of appropriations for the procurement of other weapons to or for the use of any armed force of the United States. (Essentially, heavy, medium, and light artillery, anti-aircraft artillery, rifles, machine-guns, mortars, small arms weapons, and any crew-fired piece using fixed ammunition);

In 1970 (Public Law 91-441) to require authorization of appropriations to or for the use of the Navy for the procurement of torpedoes and related support equipment; and to require authorization of the average annual active duty personnel strength for each component of the Armed Forces as a condition precedent to the appropriation of funds for this purpose;

In 1971 (Public Law 92-436) to require annual authorization for the average military training student loads for each component of the Armed Forces, and modified the provision relating to authorization for active duty personnel strength;

In 1973 (Public Law 93-155) to require authorization for end strength civilian employment for each component of the Defense Department in each fiscal year;

In 1975 (Public Law 94-106) to require the annual authorization of military construction of ammunition facilities;

In 1980 (Public Law 96-342) to require the annual authorization of appropriations of funds for the operation and maintenance of any armed force of the activities and agencies of the Department of De-

fense (other than the military departments) for fiscal years beginning after September 30, 1981; and

In 1982 (Public Law 97–86) to require the annual authorization of appropriations of funds for procurement of ammunition or other procurement for any armed force or for agencies of the Department of Defense (other than military departments).

Also, in 1973 these enactments were codified by section 803(a) of Public Law 93–155 into Title 10, United States Code, as section 138. Section 138 was amended on several occasions and has been redesignated as section 114 of Title 10, United States Code. The law today reads as follows:

§ 114. Annual authorization of appropriations

(a) No funds may be appropriated for any fiscal year to or for the use of any armed force or obligated or expended for—

- (1) procurement of aircraft, missiles, or naval vessels;
- (2) any research, development, test, or evaluation, or procurement or production related thereto;
- (3) procurement of tracked combat vehicles;
- (4) procurement of other weapons;
- (5) procurement of naval torpedoes and related support equipment;
- (6) military construction;
- (7) the operation and maintenance of any armed force or of the activities and agencies of the Department of Defense (other than the military departments);
- (8) procurement of ammunition; or
- (9) other procurement by any armed force or by the activities and agencies of the Department of Defense (other than the military departments);

unless funds therefor have been specifically authorized by law.

(b) In subsection (a)(6), the term “military construction” includes any construction, development, conversion, or extension of any kind which is carried out with respect to any military facility or installation (including any Government-owned or Government-leased industrial facility used for the production of defense articles and any facility to which section 2353 of this title applies), any activity to which section 2807 of this title applies, any activity to which chapter 1803 of this title applies, and advances to the Secretary of Transportation for the construction of defense access roads under section 210 of title 23. Such term does not include any activity to which section 2821 or 2854 of this title applies.

(c)(1) The size of the Special Defense Acquisition Fund established pursuant to chapter 5 of the Arms Export Control Act (22 U.S.C. 2795 et seq.) may not exceed \$1,070,000,000.

(2) Notwithstanding section 37(a) of the Arms Export Control Act (22 U.S.C. 2777(a)), amounts received by the United States pursuant to subparagraph (A) of section 21(a)(1) of that Act (22 U.S.C. 2761(a)(1))—

- (A) shall be credited to the Special Defense Acquisition Fund established pursuant to chapter 5 of that Act (22 U.S.C. 2795(b)(1)), but subject to the limitation in paragraph (1) and other applicable law, and

(B) to the extent not so credited, shall be deposited in the Treasury as miscellaneous receipts as provided in section 3302(b) of title 31.

(d) Funds may be appropriated for the armed forces for use as an emergency fund for research, development, test, and evaluation, or related procurement or production only if the appropriation of the funds is authorized by law after June 30, 1966.

(e) In each budget submitted by the President to Congress under section 1105 of title 31, amounts requested for procurement of equipment for the reserve components of the armed forces (including the National Guard) shall be set forth separately from other amounts requested for procurement for the armed forces.

(f) In each budget submitted by the President to Congress under section 1105 of title 31, amounts requested for procurement of ammunition for the Navy and Marine Corps, and for procurement of ammunition for the Air Force, shall be set forth separately from other amounts requested for procurement.

§ 115. Personnel strengths: requirement for annual authorization

(a) Congress shall authorize personnel strength levels for each fiscal year for each of the following:

(1) The end strength for each of the armed forces (other than the Coast Guard) for (A) active-duty personnel who are to be paid from funds appropriated for active-duty personnel, and (B) active-duty personnel and full-time National Guard duty personnel who are to be paid from funds appropriated for reserve personnel.

(2) The end strength for the Selected Reserve of each reserve component of the armed forces.

(b) No funds may be appropriated for any fiscal year to or for—

(1) the use of active-duty personnel or full-time National Guard duty personnel of any of the armed forces (other than the Coast Guard) unless the end strength for such personnel of that armed force for that fiscal year has been authorized by law; or

(2) the use of the Selected Reserve of any reserve component of the armed forces unless the end strength for the Selected Reserve of that component for that fiscal year has been authorized by law.

(c) Upon determination by the Secretary of Defense that such action is in the national interest, the Secretary may—

(1) increase the end strength authorized pursuant to subsection (a)(1)(A) for a fiscal year for any of the armed forces by a number equal to not more than 1 percent of that end strength; and

(2) increase the end strength authorized pursuant to subsection (a)(1)(B) for a fiscal year for any of the armed forces by a number equal to not more than 2 percent of that end strength; and

(3) vary the end strength authorized pursuant to subsection (a)(2) for a fiscal year for the Selected Reserve of any of the reserve components by a number equal to not more than 2 percent of that end strength.

(d) In counting active-duty personnel for the purpose of the end-strengths authorized pursuant to subsection (a)(1), persons in the following categories shall be excluded:

(1) Members of the Ready Reserve ordered to active duty under section 12302 of this title.

(2) Members of the Selected Reserve of the Ready Reserve ordered to active duty under section 12304 of this title.

(3) Members of the National Guard called into Federal service under section 12406 of this title.

(4) Members of the militia called into Federal service under chapter 15 of this title.

(5) Members of reserve components on active duty for training.

(6) Members of reserve components on active duty for 180 days or less to perform special work.

(7) Members on full-time National Guard duty for 180 days or less.

(8) Members of the Selected Reserve of the Ready Reserve on active duty for more than 180 days to support programs described in section 1203(b) of the Cooperative Threat Reduction Act of 1993 (title XII of Public Law 103–160; 22 U.S.C. 5952(b)).

(9) Members of reserve components (not described in paragraph (8)) on active duty for more than 180 days but less than 271 days to perform special work in support of the combatant commands, except that—

(A) general and flag officers may not be excluded under this paragraph; and

(B) the number of members of any of the armed forces excluded under this paragraph may not exceed the number equal to 0.2 percent of the end strength authorized for active-duty personnel of that armed force under subsection (a)(1)(A).

(e) The authorized strength of the Navy under subsection (a)(1) is increased by the authorized strength of the Coast Guard during any period when the Coast Guard is operating as a service in the Navy.

[(f) Repealed. P.L. 104–106 1061(c)(3), Feb. 10, 1996, 110 Stat. 442.]

(g) Congress shall authorize for each fiscal year the end strength for military technicians for each reserve component of the Army and Air Force. Funds available to the Department of Defense for any fiscal year may not be used for the pay of a military technician during that fiscal year unless the technician fills a position that is within the number of such positions authorized by law for that fiscal year for the reserve component of that technician. This subsection applies without regard to section 129 of this title. In each budget submitted by the President to Congress under section 1105 of title 31, the end strength requested for military technicians (dual status) for each reserve component of the Army and Air Force shall be specifically set forth.

ACTIVITIES OF THE COMMITTEE ON ARMED SERVICES DURING THE 106TH CONGRESS (1999 AND 2000)

The following is a summary of activities of the Committee on Armed services during the 106th Congress.

Soldiers', Sailors', Airmen's, and Marines' Bill of Rights Act of 1999

The committee moved quickly at the start of the 106th Congress on legislation to deal with the serious problem of recruiting and retaining service members for the armed forces. On January 27, 1999, the committee marked up S. 4, The Soldiers', Sailors', Airmen's and Marines' Bill of Rights Act of 1999. The bill, which was introduced by Majority Leader Lott, Chairman Warner, and others, authorized a 4.8 percent pay raise for active and reserve military personnel, reformed the military pay tables, and improved the military retirement system.

The committee reported S. 4 to the Senate on February 2, 1999. After two days of debate, the bill passed the Senate by a vote of 91-8 on February 24, 1999.

S. 4 was delivered to the House on February 25, 1999 and subsequently held at the desk in the House. On November 18, 1999, H. Res. 393, providing for the disposition of S. 4 was considered in the House. H. Res. 393 provided for the return of S. 4 to the Senate because, in the opinion of the House of Representatives, S. 4 contravened the Constitution and infringed upon the privileges of the House. H. Res. 393 was agreed to by voice vote. Although S. 4 was not enacted into law as a free-standing bill, the provisions of S. 4 were incorporated into the National Defense Authorization Act for Fiscal Year 2000.

Cochran-Inouye National Missile Defense Act of 1999

On January 20, 1999, S. 257, The Cochran-Inouye National Missile Defense Act of 1999, was referred to the committee. On February 4 and February 9, 1999, the committee considered and marked up the legislation.

On February 12, 1999, the committee reported S. 257 to the Senate. In the report accompanying S. 257, the committee noted that the need for deployment of NMD was clear; that a ballistic missile threat to the United States exists and continues to grow. The committee further noted that confidence in the ability of the U.S. military to respond rapidly to the ballistic missile threat must be tempered by realistic assessments of the technical challenges and the ability of the technical community to deal with these challenges. The committee concluded that S. 257, which established a policy to deploy NMD as soon as technologically possible, would ensure the United States is prepared to meet that threat.

On March 15, 1999, the Senate began two days of debate on S. 257. Two amendments were agreed to and included in the legislation. The bill passed the Senate on March 17, 1999, as amended, by a vote of 97–3.

The House agreed to incorporate S. 257 into H.R. 4 on May 20, 1999, by a vote of 345 to 71. H.R. 4 was presented to the President on July 12, 1999, and was signed into law on July 22, 1999 (Public Law 106–38).

National Defense Authorization Act for Fiscal Year 2000

In addition to action on S. 4 and S. 257, the committee began the 106th Congress with a series of in-depth hearings and briefings on the readiness of the Armed Forces, global threats to U.S. national security interests, and current military operations. The Chairman of the Joint Chiefs, the services chiefs, the Director of Central Intelligence, the Director of the Defense Intelligence Agency and representatives of the Joint Staff provided committee members with updated information on the full spectrum of issues pertinent to the defense of the Nation and U.S. national security interests worldwide. These discussions framed the context for consideration of the president's fiscal year 2000 budget plan.

The committee received the President's budget request on February 1, 1999, and, on February 2, 1999, began a series of hearings on the proposal. Several senior officials from the Defense Department, including Secretary of Defense Cohen, Chairman of the Joint Chiefs of Staff Shelton, the service secretaries, the unified and specified combatant commanders, the service chiefs, representatives from the General Accounting Office, other civilian government officials and industry representatives testified before the committee. On May 10, 1999, when the committee met to mark up the National Defense Authorization Bill, 243 individuals had testified before the committee during 49 hearings.

On May 17, 1999, the committee reported the National Defense Authorization Bill for Fiscal Year 2000 to the Senate. The bill, S. 1059, authorized \$288.8 billion in budget authority for defense programs. This amount was \$8.3 billion above the President's budget request and allowed for a 2.2 percent increase in real terms for defense. This was the first real increase in defense spending authorized in 14 years.

The National Military Strategy of the United States envisioned that the armed forces would be prepared to fight and win two nearly simultaneous major theater wars, the most likely being in the Persian Gulf and in the Korean peninsula. The strategy did not anticipate U.S. military involvement in multiple, concurrent contingency operations. As the U.S. military was strained by ongoing day-to-day operations, the contingency operations in Bosnia and Iraq, and the escalating conflict in Kosovo, the committee focused on the implications of these operations on military readiness, quality of life, and modernization costs.

In this regard, the committee addressed several essential goals in the bill. First, the committee focused on the ability of the United States Armed Forces to meet its commitments worldwide. Second, the committee stressed countering future national security threats.

Finally, the committee focused on enhancing the quality of life of the men and women of the armed services and their families.

The committee's focus on quality of life was of particular concern and resulted in a series of initiatives to offset continuing negative trends in personnel recruiting and retention. Recruiting and retention have been a committee priority for the last three years. As a result, the bill included pay and compensation elements that were included in The Soldiers, Sailors, Airmen and Marines' Bill or Rights Act of 1999, and the reform of the military retirement system and improvements in the military health care system.

The Senate began consideration of the bill on May 24, 1999. During the Senate's 37 hours of debate on the measure, 148 amendments were offered and 12 roll call votes were recorded. The measure passed the Senate, with amendments, on May 27, 1999, by a vote of 92-3.

Following the passage of the House version of the bill, conferees from the Senate and House began a conference on July 13, 1999, to reconcile the difference between the two versions of the bill. The conference report (H. Rpt. 106-301) was filed on August 6, 1999. The House approved the conference report on September 15, 1999 by a vote of 375-45.

Following two days of debate, the Senate agreed to the conference report on September 22, 1999, by a vote of 93-5 and forwarded the measure to the President. The President signed the bill into law on October 5, 1999 (Public Law 106-65).

Establishment of Emerging Threats and Capabilities Subcommittee

In January 1999, Chairman Warner established the Subcommittee on Emerging Threats and Capabilities. The purpose of the subcommittee is to provide a focus for the Department of Defense's efforts to counter new and emerging threats to vital national security interests. The subcommittee has oversight over such threats as the proliferation of weapons of mass destruction, international terrorism at U.S. targets both at home and abroad, information warfare, and narco-trafficking. In addition, the subcommittee has budgetary oversight of the defense technology base, which will provide for the development of the technology necessary for the U.S. military to meet the challenges of the 21st Century.

A key element of the subcommittee's responsibilities is the changing role of the U.S. military in the new threat environment, to include an examination of emerging operational concepts and non-traditional military operations. In this connection, the subcommittee has oversight of the procurement, and research and development programs of the U.S. Special Operations Command.

Military Operations

From March 24 to June 10, 1999, NATO conducted its first large-scale, offensive military operations—a 78-day air war, on behalf of Kosovo. Over 38,000 NATO combat sorties were conducted, primarily by U.S. forces, during the Kosovo air campaign with no combat casualties. In the end, the military operation resulted in the withdrawal of Serb military troops from Kosovo.

During the 106th Congress, the committee conducted eleven hearings and briefing specifically on Serb aggression in Kosovo, the air war, the deployment of U.S. and NATO ground forces as peacekeepers following the air campaign, and other pertinent issues. In addition to these meetings, a consistent theme through many of the other full and subcommittee hearings during both sessions of the Congress centered on Kosovo issues, including the “lessons learned” from military operations in Kosovo. Secretary of Defense Cohen and Chairman of the Joint Chiefs of Staff Shelton testified several times on these matters before the committee. Other witnesses included: General Wesley Clark, USA, Commander-in-Chief, United States European Command, and Supreme Allied Commander, Europe; Admiral James Ellis, USN, Commander-in-Chief, U.S. Naval Forces Europe/Allied Forces Southern Europe; and, Lieutenant General Michael Short, USAF Commander, 16th Air Force/Allied Air Forces, Southern Europe.

Of paramount concern to the committee was applying the “lessons learned” from the air campaign over Kosovo to ensure the future preparedness of the U.S. armed forces. The “lessons learned” highlighted not only shortfalls in a variety of weapon systems and intelligence programs, but also the difficulties of engaging in coalition operations. The committee authorized increases in funding primarily to the President’s fiscal year 2001 defense budget request to address some of the most essential “lessons learned” from Kosovo.

The Military Health Care Improvement Act of 2000

On February 23, 2000, S. 2087, The Military Health Care Improvement Act of 2000, was referred to the committee. The purpose of the bill, introduced by Chairman Warner and a bipartisan group of senators, was to address the most urgent medical needs of active duty and retired personnel and their families. In addition to providing for improvements in the TRICARE program, the bill provided, for the first time, an entitlement to military health care for Medicare-eligible military retirees and their families in the form of a pharmacy benefit for Medicare-eligible military retirees.

On May 9, 2000, provisions of S. 2087 were included in S. 2549, The National Defense Authorization Bill for Fiscal Year 2001.

The National Defense Authorization Act for Fiscal Year 2001

The committee received the President’s budget request for fiscal year 2001 on February 7, 2000. On February 8, 2000, Secretary of Defense Cohen and Chairman of the Joint Chiefs of Staff Shelton testified on the budget request. This was the first of 36 hearings conducted by the committee on the budget proposal. During these hearings, 171 witnesses provided the committee with expert analysis and assessments of the President’s budget request.

The subcommittees and full committee met from May 2 through May 9, 2000, to mark up the National Defense Authorization Bill for Fiscal Year 2001 (S. 2549). The committee agreed to authorize \$309.8 billion for defense spending for fiscal year 2001, an increase of \$4.5 billion over the President’s budget request, and a real increase of 4.4. percent. For the second year in a row, the committee

was able to report to the Senate a bill that contained a real increase in defense spending.

The committee reported S. 2549 to the Senate on May 12, 2000. Through this legislation, the committee sought to address continuing problems that were the result of a decade and half of constrained funding and an unprecedented number of overseas deployments of military personnel. The authorized funding increases were essential steps to address short term deficiencies as well as long-term modernization requirements.

S. 2549 also included the provisions of S. 2087, The Military Health Improvement Act of 2000, and other initiatives to address health care concerns of current and retired military personnel, including the guarantee of health care for life for military retirees and their families. These provisions also would accelerate improvements in TRICARE, expand TRICARE benefits to families of military personnel serving in the remote locations, increase access to health care and provide pharmacy benefits for military retirees, and expand the long-standing cooperative relationship between the DOD and the Department of Veterans' Affairs.

On June 6, 2000, the Senate began consideration of S. 2549. After 41 hours of debate, the consideration of 163 amendments, and 13 roll call votes, the Senate passed the bill by a vote of 97–3 on July 13, 2000.

On July 18, 2000, conferees from the House and Senate began meetings to resolve the differences between the Senate and House defense authorization bills.

On October 6, 2000, the conferees concluded negotiations and filed the conference report. H. Rept. 106–945, in the House. On October 11, 2000, the House agreed to the measure by a vote of 382–31.

On October 12, 2000, a motion to waive the Budget Act with respect to the conference report was agreed to in the Senate by a vote of 84–9. The Senate subsequently agreed to H. Rept. 106–945 by a vote of 90–3.

On October 30, 2000, the measure was signed by the President and became Public Law 106–398.

COMMITTEE ON ARMED SERVICES RULES OF PROCEDURE

(Adopted March 25, 1999)

1. *Regular Meeting Day.* The Committee shall meet at least once a month when Congress is in session. The regular meeting days of the Committee shall be Tuesday and Thursday, unless the Chairman directs otherwise.

2. *Additional Meetings.* The chairman may call such additional meetings as he deems necessary.

3. *Special Meetings.* Special meetings of the committee may be called by a majority of the members of the committee in accordance with paragraph 3 of Rule XXVI of the Standing Rules of the Senate.

4. *Open Meetings.* Each meeting of the committee, or any subcommittee thereof, including meetings to conduct hearings, shall be open to the public, except that a meeting or series of meetings by the committee or a subcommittee thereof on the same subject for a period of no more than fourteen (14) calendar days may be closed to the public on a motion made and seconded to go into closed session to discuss only whether the matters enumerated below in clauses (a) through (f) would require the meeting to be closed, followed immediately by a record vote in open session by a majority of the members of the committee or subcommittee when it is determined that the matters to be discussed or the testimony to be taken at such meeting or meetings—

(a) will disclose matters necessary to be kept secret in the interests of national defense or the confidential conduct of the foreign relations of the United States;

(b) will relate solely to matters of committee staff personnel or internal staff management or procedure;

(c) will tend to charge an individual with a crime or misconduct, to disgrace or injure the professional standing of an individual, or otherwise to expose an individual to public contempt or obloquy or will represent a clearly unwarranted invasion of the privacy of an individual;

(d) will disclose the identity of any informer or law enforcement agent or will disclose any information relating to the investigation or prosecution of a criminal offense that is required to be kept secret in the interests of effective law enforcement;

(e) will disclose information relating to the trade secrets or financial or commercial information pertaining specifically to a given person if—

(1) an Act of Congress requires the information to be kept confidential by Government officers and employees; or

(2) the information has been obtained by the Government on a confidential basis, other than through an appli-

cation by such person for a specific Government financial or other benefit, and is required to be kept secret in order to prevent undue injury to the competitive position of such person; or

(f) may divulge matters required to be kept confidential under other provisions of law or Government regulations.

5. *Presiding Officer.* The chairman shall preside at all meetings and hearings of the committee except that in his absence the ranking majority member present at the meeting or hearing shall preside unless by majority vote the committee provides otherwise.

6. *Quorum.* (a) A majority of the members of the committee are required to be actually present to report a matter or measure from the committee. (See Standing Rules of the Senate 26.7(a)(1).

(b) Except as provided in subsections (a) and (c), and other than for the conduct of hearings, six members of the committee shall constitute a quorum for the transaction of such business as may be considered by the committee.

(c) Three members of the committee, one of whom shall be a member of the minority party, shall constitute a quorum for the purpose of taking sworn testimony, unless otherwise ordered by a majority of the full committee.

(d) Proxy votes may not be considered for the purpose of establishing a quorum.

7. *Proxy Voting.* Proxy voting shall be allowed on all measures and matters before the committee. The vote by proxy of any member of the committee may be counted for the purpose of reporting any measure or matter to the Senate if the absent member casting such vote has been informed of the matter on which he is being recorded and has affirmatively requested that he be so recorded. Proxy must be given in writing.

8. *Announcement of Votes.* The results of all roll call votes taken in any meeting of the committee on any measure, or amendment thereto, shall be announced in the committee report, unless previously announced by the committee. The announcement shall include a tabulation of the votes cast in favor and votes cast in opposition to each such measure and amendment by each member of the committee who was present at such meeting. The chairman may hold open a roll call vote on any measure or matter which is before the committee until no later than midnight of the day on which the committee votes on such measure or matter.

9. *Subpoenas.* Subpoenas for attendance of witnesses and for the production of memoranda, documents, records, and the like may be issued by the chairman or any other member designated by him, but only when authorized by a majority of the members of the committee. The subpoena shall briefly state the matter to which the witness is expected to testify or the documents to be produced.

10. *Hearings.* (a) Public notice shall be given of the date, place, and subject matter of any hearing to be held by the committee, or any subcommittee thereof, at least 1 week in advance of such hearing, unless the committee or subcommittee determines that good cause exists for beginning such hearings at an earlier time.

(b) Hearings may be initiated only by the specified authorization of the committee or subcommittee.

(c) Hearings shall be held only in the District of Columbia unless specifically authorized to be held elsewhere by a majority vote of the committee or subcommittee conducting such hearings.

(d) Witnesses appearing before the committee shall file with the clerk of the committee a written statement of their proposed testimony prior to the hearing at which they are to appear unless the chairman and the ranking minority member determine that there is good cause not to file such a statement. Witnesses testifying on behalf of the Administration shall furnish an additional 50 copies of their statement to the Committee. All statements must be received by the Committee at least 48 hours (not including weekends or holidays) before the hearing.

(e) Confidential testimony taken or confidential material presented in a closed hearing of the committee or subcommittee or any report of the proceedings of such hearing shall not be made public in whole or in part or by way of summary unless authorized by a majority vote of the committee or subcommittee.

(f) Any witness summoned to give testimony or evidence at a public or closed hearing of the committee or subcommittee may be accompanied by counsel of his own choosing who shall be permitted at all times during such hearing to advise such witness of his legal rights.

(g) Witnesses providing unsworn testimony to the committee may be given a transcript of such testimony for the purpose of making minor grammatical corrections. Such witnesses will not, however, be permitted to alter the substance of their testimony. Any question involving such corrections shall be decided by the chairman.

11. *Nominations.* Unless otherwise ordered by the committee, nominations referred to the committee shall be held for at least seven (7) days before being voted on by the committee. Each member of the committee shall be furnished a copy of all nominations referred to the committee.

12. *Real Property Transactions.* Each member of the committee shall be furnished with a copy of the proposals of the Secretaries of the Army, Navy, and Air Force, submitted pursuant to 10 U.S.C. 2662 and with a copy of the proposals of the Director of the Federal Emergency Management Agency, submitted pursuant to 50 U.S.C. App. 2285, regarding the proposed acquisition or disposition of property of an estimated price or rental of more than \$50,000. Any member of the committee objecting to or requesting information on a proposed acquisition or disposal shall communicate his objection or request to the chairman of the committee within thirty (30) days from the date of submission.

13. *Legislative Calendar.* (a) The clerk of the committee shall keep a printed calendar for the information of each committee member showing the bills introduced and referred to the committee and the status of such bills. Such calendar shall be revised from time to time to show pertinent changes in such bills, the current status thereof, and new bills introduced and referred to the committee. A copy of each new revision shall be furnished to each member of the committee.

(b) Unless otherwise ordered, measures referred to the committee shall be referred by the clerk of the committee to the appropriate department or agency of the Government for reports thereon.

14. Except as otherwise specified herein, the Standing Rules of the Senate shall govern the actions of the committee. Each subcommittee of the committee is part of the committee, and is therefore subject to the committee's rules so far as applicable.

15. *Powers and Duties of Subcommittees.* Each subcommittee is authorized to meet, hold hearings, receive evidence, and report to the full committee on all matters referred to it. Subcommittee chairmen shall set dates for hearings and meetings of their respective subcommittees after consultation with the chairman and other subcommittee chairmen with a view toward avoiding simultaneous scheduling of full committee and subcommittee meetings or hearings whenever possible.
