PURPOSE OF THE LEGISLATION

H.R. 1195 amends the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (“SAFETEA–LU”) to correct drafting errors, make technical changes, and clarify Congressional intent on several provisions of the SAFETEA–LU to ensure that all policies, programs, and projects embodied in the authorization law are implemented as intended by Congress.

BACKGROUND AND NEED FOR LEGISLATION

The SAFETEA–LU conference report was adopted by Congress on July 29, 2005, and was signed into law by President Bush on August 10, 2005. This legislation authorizes the Federal surface transportation programs for highways, highway safety, and public transportation for the five-year period fiscal years 2005–2009, and provides guaranteed funding of \$244.1 billion to carry out these programs.

Since enactment of SAFETEA–LU, a number of drafting, technical, and funding errors have been identified in the law. A technical corrections bill is needed to rectify these errors so that federal surface transportation programs and projects can be implemented properly and as intended by Congress.

In particular, H.R. 1195 makes critical corrections to the transportation research program authorized in SAFETEA–LU. Errors were made in the research program funding calculations that resulted in lower than intended funding levels in several research programs. These technical changes will recapture critical research funds for many essential programs, including:

- the Future Strategic Highway Research Program, a concentrated, results-oriented research program focused on solving the most critical problems in highway safety, reliability, capacity, and renewal;
- the University Transportation Center Program which advances U.S. technology and expertise in the many disciplines comprising transportation through the mechanisms of education, research, and technology; and
- the development and publication of the U.S. Department of Transportation’s biennial Conditions and Performance report, which provides Congress and other policy makers with an objective appraisal of highway, bridge, and transit finance, physical condition, operational performance, and future investment requirements.

The bill also corrects a drafting error regarding the Magnetic Levitation Transportation Deployment program authorized in section 1307 of SAFETEA-LU; makes technical corrections to projects contained in sections 1302, 1702, and 1934 of SAFETEA-LU; and makes project description changes to public transportation projects receiving funds for alternatives analysis under section 3037(c) of SAFETEA-LU, new starts under section 3043 of SAFETEA-LU, and bus and bus facilities projects under section 3044 of SAFETEA-LU.

H.R. 1195 also extends the deadline for the National Surface Transportation Policy and Revenue Study Commission established in SAFETEA-LU to report back to Congress and increases funding available to the Department of Transportation to carry out the Commission's mission.

Finally, the bill increases the rescission of unobligated balances of highway contract authority on September 30, 2009, that is already contained in SAFETEA-LU to offset the creation of contract authority (a total of \$117 million) in other sections of this bill. The amount of annual transportation spending and outlays for fiscal years 2005 through 2009 does not change as a result of this bill.

SUMMARY OF THE LEGISLATION

Sec. 101. Surface transportation technical corrections

Subsection (a) Correction of Internal References in Disadvantaged Business Enterprises. This provision corrects erroneous paragraph cross-references.

Subsection (b) Correction of Distribution of Obligation Authority. This provision makes a technical correction to the provision governing the distribution of obligation authority. It eliminates the qualifier "among the States" because it is unduly restrictive, and proper administration of this provision requires its deletion.

Subsection (c) Correction of Federal Lands Highways. This provision clarifies that funding can be invested on forest roads, not only forest highways, to facilitate the passage of aquatic species beneath forest roads.

Subsection (d) Correction of Description of National Corridor Infrastructure Improvement Project. The table of project descriptions in section 1302(e) of SAFETEA-LU does not include "LA" in the State listing for Project No. 1. The correction is needed to accurately describe the project in question.

Subsection (e) Correction of Interstate Route 376 High Priority Designation. The correction is needed to describe accurately the project in question. The correction includes the correct description of the route designated for connection to I-80.

Subsection (f) Correction of Infrastructure Finance Section. The correction is necessary to properly redesignate the sections in question.

Subsection (g) Transportation Systems Management and Operations Defined. SAFETEA-LU contains several references to "transportation systems management and operations", including references to the term under section 101(a) of title 23, United States Code. However, there is no definition of the term in section 101(a) of title 23, United States Code, and SAFETEA-LU does not

add a definition. This provision adds the definition of “transportation systems management and operations” to title 23.

Subsection (h) Correction of Reference in Apportionment of Highway Safety Improvement Program Funds. This provision makes uniform the apportionment of Highway Safety Improvement Program funding on the basis of “Federal-aid highway” ratios in all cases.

Subsection (i) Correction of Amendment to Advance Construction. This provision is a technical amendment to changes made in SAFETEA-LU to the advance construction program in Title 23, United States Code.

Subsection (j) Correction of High Priority Projects. This provision corrects duplicative subsection designations in section 117 of title 23, United States Code. The amendment also makes technical changes to section 117, including spelling out acronyms.

Subsection (k) Correction of Transfer of Unused Protective-Device Funds to Other Highway Safety Improvement Program Projects. This provision corrects an error in SAFETEA-LU with regard to using funds specified for protective devices at rail crossings on other highway safety improvement program projects if a State has certified that it has met all of its protective device needs.

Subsection (l) Metropolitan Transportation Planning. This provision clarifies that: (1) the full funding requirement applies to either a project or an identified phase of a project, and (2) the metropolitan planning organization in a transportation management area is responsible for carrying out the planning process.

Subsection (m) Correction of Highway Bridge Program. This provision makes various technical and clarifying changes to the Highway Bridge Program.

Subsection (n) Correction of National Scenic Byways Program Coverage. This provision adds “All-American Roads” and “America’s Byways” categories to the National Scenic Byways Program.

Subsection (o) Correction of Reference in Toll Provision. This provision corrects the statutory reference to the reduced toll amounts applicable to low-emission and energy-efficient vehicles in high-occupancy-vehicle lanes.

Subsection (p) Correction of Recreational Trails Program Apportionment Exceptions. This correction is needed to describe accurately the two exceptions in section 206(d)(3)(A) of title 23, United States Code.

Subsection (q) Consolidation of Grant Applications. This provision enables the National Highway Traffic Safety Administration to produce a consolidated application encompassing as many grant applications as practical.

Subsection (r) Correction of Infrastructure Finance. Two nationally recognized statistical rating organizations (NRSROs) provide rating categories different from those enumerated in section 601 of title 23, United States Code. The change in this subsection adds to the current definition of “investment-grade rating” the rating categories used by these NRSROs: “bbb minus” and “BBB (low)”.

Subsection (s) Correction of Miscellaneous Typographical Errors. Paragraph (1): This correction is necessary to address a gap in subsection designations. Paragraph (2): This correction clarifies that tribal governments are eligible recipients of the Safe Routes to School program. Paragraph (3): This correction inserts “and” be-

tween “plan” and “administer”. Paragraph (4): This correction clarifies the programs that are subject to the rescission.

Sec. 102. Maglev

This section creates contract authority for the Magnetic Levitation Transportation

Deployment program. SAFETEA-LU inadvertently did not include a provision making contract authority available for this program. This provision corrects the error.

Sec. 103. Projects of National and Regional Significance and National Corridor Infrastructure Improvement Projects

Subsection (a) makes technical corrections to the project definition for project number 4 of the Projects of National and Regional Significance Program. No new budget authority is authorized for the Program.

Subsection (b) makes technical corrections to the project definition for project number 23 in the National Corridor Infrastructure Improvement Project Program. No new budget authority is authorized for the Program.

Sec. 104. Idling reduction facilities

This section repeals section 111(d) of title 23, United States Code, which permits idling reduction facilities in Interstate rights-of-way.

Sec. 105. Project authorizations

Subsection (a) makes technical corrections to projects in the table contained in section 1702 of SAFETEA-LU.

Subsection (b) clarifies that if a High Priority Project is changed in this Act, only the unused obligation authority is made available to be spent.

Subsection (c) provides that a State may use up to \$1 million of its Surface Transportation Program funding for certain activities designed to prevent highway fuel tax evasion.

Subsection (d) provides 100 percent Federal share for project numbers 1284 and 3093 in the table contained in section 1702. No new budget authority is authorized for the High Priority Projects Program.

Sec. 106. Nonmotorized Transportation Pilot Program

This section amends a project designation for the Nonmotorized Transportation Pilot Program, changing “Minneapolis-St. Paul” to “Minneapolis”.

Sec. 107. Correction of interstate designation

This section strikes section 1908(a)(3) of SAFETEA-LU, which refers to Interstate “designations” in paragraph (2), because paragraph (2) does not designate any routes as Interstate System routes pursuant to section 103(c)(4) of title 23, United States Code.

Sec. 108. Future of surface transportation system

This section makes technical corrections to section 1909(b) of SAFETEA-LU, which establishes the National Surface Transportation Policy and Revenue Study Commission. The section clarifies

that funds made available to the Commission may only be expended to support its activities.

Sec. 109. Buy America

This section amends a sense of the Congress provision in SAFETEA-LU related to the Buy America test as applied to bridge projects.

This section clarifies section 1928 of SAFETEA-LU regarding the Sense of Congress concerning Buy America requirements for Federal-aid highway bridge projects. Congress does not believe that the Federal Highway Administration (“FHWA”) is implementing the Buy America Act in a way consistent with the statutory intent. This provision is intended to clarify that the “additional cost test” should be conducted on the basis of an entire bridge project, not on separate components of the bridge project. The FHWA has applied the test to separate components of a bridge project if the project is broken into several components for contracting purposes. The original Sense of Congress, as well as the amendment included in this bill, is intended to clarify Congressional intent.

Sec. 110. Transportation improvements

This section makes technical corrections to projects in the table contained in section 1934 of SAFETEA-LU. No new budget authority is authorized for Transportation Improvements.

Sec. 111. BIA Indian road program

This section makes technical corrections to the BIA Indian Reservation Road program authorized in section 1939 of SAFETEA-LU.

Sec. 112. I-95/Contee Road interchange design

This section modifies the authorization in section 1961 of SAFETEA-LU from a study to design of the I-95/Contee Road interchange. The State of Maryland has already completed the study for the interchange. No new budget authority is authorized for the project.

Sec. 113. Highway research funding

Subsections (a) through (f) make necessary changes to correct a SAFETEA-LU drafting error that caused the Surface Transportation Research Development and Deployment (“STRDD”) account in Title V to be oversubscribed. The oversubscription of the STRDD program under section 5101(a)(1) of SAFETEA-LU has resulted in significantly reduced funding for the U.S. Department of Transportation to conduct its legacy research programs and research activities. The section provides funding for the Future Strategic Highway Research Program authorized under section 5210 of SAFETEA-LU as a percentage deduction from Federal-aid highway apportionments.

Paragraph (g)(1) strikes a duplicative subsection (h) in section 502 of title 23, United States Code, and replaces it with the correct subsection (h) designation.

Paragraph (g)(2) corrects the section heading in section 5512(a)(2) of SAFETEA-LU to accurately identify the provision contained therein.

Paragraph (g)(3) makes technical corrections to maintenance-of-effort and program administration provisions of the University Transportation Research program.

Sec. 114. Rescission

This section increases the rescission of unobligated balances of highway contract authority that is contained in SAFETEA-LU to offset contract authority provided in other sections of this bill.

Sec. 115. TEA-21 technical corrections

Subsection (a) extends an authorization to use a percentage of Surface Transportation Program funds on roads functionally classified as minor collectors. This authorization was included in the Intermodal Surface Transportation Efficiency Act and TEA-21 but was inadvertently left out of SAFETEA-LU.

Subsection (b) makes technical corrections to projects contained in section 1602 of the Transportation Equity Act of the 21st Century (TEA-21). No new budget authority is authorized for these projects.

Sec. 116. Definition of repeat intoxicated driver law

This section amends definition of “repeat intoxicated driver law” in section 164(a)(5)(A) of title 23, United States Code, to clarify the definition includes a State law that provides a driver’s license suspension for not less than one year, or a combination of suspension of all driving privileges for the first 45 days of the suspension period followed by reinstatement of limited driving privileges if an ignition interlock device is installed on each motor vehicle owned or operated by the offender. This provision conforms the public policy in chapter 1 of title 23, United States Code, with the public policy in chapter 4 of title 23, United States Code, under the section 410, Alcohol-Impaired Countermeasures Incentive Grant Program, as reauthorized in SAFETEA-LU.

Although the interlock provision was included in both the House- and Senate-passed bills, it was not included in the SAFETEA-LU Conference Report. H.R. 1195 incorporates this change by giving States more flexibility to either continue with the current one-year license suspension requirement, or permit a 45-day license suspension, after which limited driving privileges are reinstated provided that an ignition interlock device is placed on the offender’s vehicle.

Repeat offenders are a significant part of the drunk driving problem in the United States. National Highway Traffic Safety Administration data found that repeat offenders represent about one-third of all Driving Under the Influence (“DUI”) arrests each year. It is estimated that between 50 and 75 percent of repeat offenders whose licenses have been suspended continue to drive illegally. An ignition interlock device prevents offenders who have alcohol in their bloodstream from operating their vehicle, but allows them to continue to drive to work, school, or an alcohol treatment program.

Sec. 117. Research technical correction

This section revises the contract authority amounts provided in subtitle D of SAFETEA-LU to match the fiscal year 2009 authorizations provided in the University Research section in section 5101(a)(4) of SAFETEA-LU.

Sec. 118. Effective date

This section establishes the effective date for policy and project changes so that all changes can be implemented without disruption to the funding or policy continuity in the underlying authorization act.

TITLE II—TRANSIT PROVISIONS

Sec. 201. Transit technical corrections

Subsection (a) corrects a drafting error in section 5302 of title 49, United States Code, in which the term “sightseeing” was inadvertently deleted from the exception clause in the definition of public transportation.

Subsection (b) clarifies that: (1) the full funding requirement applies to either a project or an identified phase of a project, and (2) the metropolitan planning organization in a transportation management area is responsible for carrying out the planning process.

Subsection (c) replaces the term “mass transportation” with “public transportation” and makes a conforming citation change in section 5307 of title 49, United States Code.

Subsection (d) amends a subsection heading to accurately reflect the subject matter of the subsection and makes a conforming citation change in section 5309 of title 49, United States Code.

Subsection (e) conforms the language in the Government’s share of costs subsection of section 5311 of title 49, United States Code, to ensure that current policies regarding non-federal match for state administrative costs and project administrative expenses are continued and makes a conforming citation change.

Subsection (f) replaces the term “mass transportation” with “public transportation” in the subsection heading in section 5312 of title 49, United States Code.

Subsection (g) makes a conforming citation change in section 5314 of title 49, United States Code.

Subsection (h) makes a conforming citation change in section 5319 of title 49, United States Code.

Subsection (i) amends section 5320 of title 49, United States Code, to correct a typographical error and make conforming citation changes. It also authorizes the Federal Transit Administration to transfer up to 10 percent in program administrative expenses to appropriate federal land management agencies for the administration of the Alternative Transportation in Parks and Public Lands program.

Subsection (j) makes a conforming citation change in section 5323 of title 49, United States Code.

Subsection (k) clarifies that contracts for architectural, engineering, and design services shall be awarded competitively as provided under chapter 11 of title 40, United States Code, or under an approved state procurement program adopted before enactment of SAFETEA-LU that is equivalent to the requirements under federal law.

Subsection (l) makes technical corrections to section 5336 of title 49, United States Code. Subsection (l)(1) reorders the apportionment process under section 5336 of title 49, United States Code, to clarify that the one percent set-aside for the new Small Transit Intensive Cites program is performed before the remainder of the

funds is apportioned. The paragraph also makes a conforming citation change and a subsection designation change in section 5336 of title 49, United States Code. Subsection (l)(2) makes a conforming citation change in section 3034 of SAFETEA-LU that references subsection (a)(2) of section 5336 of title 49, United States Code.

Subsection (m) corrects a drafting error in section 5337 of title 49, United States Code, to update the authorization dates for the fixed guideway modernization program apportionments from “1998 through 2003” to “2005 through 2009”.

Subsection (n) makes a conforming citation change in section 5338 of title 49, United States Code.

Subsection (o) makes technical corrections to sections 3037, 3040, 3043, 3044 and 3046 of SAFETEA-LU. Subsection (o)(1) makes a project description change to a project receiving funds for alternatives analysis under section 3037(c). Subsection (o)(2) corrects a drafting error in section 3040 to increase the total of mass transit account funding under the fiscal year 2008 obligation limitation, thus decreasing the amount of general funds. This change is necessary to comport with the authorizations under section 5338 of title 49, United States Code, and section 251(c) of the Balanced Budget and Emergency Deficit Control Act. Subsection (o)(3) amends new starts project descriptions under section 3043. Subsection (o)(4) makes several project description changes to bus and bus facilities projects under section 3044. Subsection (o)(5) makes a project description change to a national research and technology project under section 3046.

TITLE III—OTHER PROVISIONS

Sec. 301. Technical amendments relating to motor carrier safety

Subsection (a) eliminates the obsolete reference to the distribution of funds for Motor Carrier Safety Assistance Program high-priority activities.

Subsection (b) corrects references in section 31144 of title 49, United States Code.

Subsection (c) corrects references within section 4114 of SAFETEA-LU.

Subsection (d) corrects paragraph references which fall under an effective date enumerated by SAFETEA-LU.

Subsection (e) corrects a reference in title 49, United States Code, by striking “Act” and inserting “section”.

Subsection (f) corrects a paragraph reference made in section 4121 of SAFETEA-LU.

Subsection (g) corrects a typographical error in section 4122(2)(A) of SAFETEA-LU.

Subsection (h) corrects a typographical error in section 31309(f) of title 49, United States Code.

Subsection (i) clarifies the title of the United States Code that should be referenced.

Subsection (j) clarifies the language in section 4142 of SAFETEA-LU.

Subsection (k) redesignates paragraphs in the civil penalty portion of the penal code because there is duplicative numbering in the title.

Subsection (l) clarifies references and re-numbers sections due to incorrect numbering in Section 5503 of title 49, United States Code.

Subsection (m) clarifies U.S. Department of Transportation's role in retaining fees collected to cover the cost of operating and upgrading the Unified Carrier Registration ("UCR") program.

Subsection (n) clarifies the definition of motor carrier found in the UCR section of the code to prevent confusion or inconsistent interpretations.

Subsection (o) corrects a typographical error in section 14504a(c)(2) of title 49, United States Code.

Subsection (p) corrects a typographical error in section 14504a(f)(1)(A)(ii) of title 49, United States Code.

Subsection (q) corrects a typographical error and statutory inconsistency in section 14504a of title 49, United States Code.

Subsection (r) extends the time for repealing the Single State Registration System from 12 months to 24 months to allow the UCR Board additional time to provide recommendations to the Federal Motor Carrier Safety Administration for its UCR rulemaking. The Committee encourages the UCR Board and FMCSA to complete this rulemaking as expeditiously as possible.

Subsection (s) allows the display of identification of payment of highway use taxation not subject to the International Fuel Tax Agreement if the State had an applicable State law in effect on October 1, 2006. The Committee encourages all States to develop and implement an electronic system of identification for motor carriers that will eliminate the need for the display of any paper credentials, as directed by the Unified Carrier Registration Act of 2005 of SAFETEA-LU. The Committee will evaluate progress toward this goal to determine whether or not exceptions will be needed in the reauthorization of SAFETEA-LU.

Subsection (t) clarifies the definition of driveaway saddle-mount vehicle.

Sec. 302. Technical amendments relating to hazardous materials transportation

Subsection (a) corrects references made in section 7102 of SAFETEA-LU.

Subsection (b) corrects a reference in section 5103a(g)(1)(B)(ii) of title 49, United States Code, by striking "Act" and inserting "subsection".

Subsection (c) inserts clarifying language into section 7124 of SAFETEA-LU.

Subsection (d) corrects the reference in Section 5121(h) of title 49, United States Code, by striking "exemptions" and inserting "special permits".

Subsection (e) corrects the section designation and heading of section 5128 of title 49, United States Code, by changing the word "Authorizations" to the singular tense.

Subsection (f) corrects the capitalization of the word "transportation" in Section 5701 of title 49, United States Code.

Subsection (g) clarifies the delegation authority of the Secretary of Transportation in the Norman Y. Mineta Research and Special Programs Improvement Act.

Sec. 303. Highway safety

Subsection (a) makes a technical correction to the section 402 Highway Safety Formula program by correcting the minimum apportionment from $\frac{1}{2}$ percent of 1 percent to $\frac{3}{4}$ percent of 1 percent.

Subsection (b)(1) strikes paragraph (2) of section 2002(b) of SAFETEA-LU and redesignates the subsequent paragraphs accordingly. The phrase contained in section 2002(b)(2) has no meaning within the context of this subsection and is a typographical error.

Subsection (b)(2) strikes subparagraph (C) of section 2007(b)(1) and re-punctuates the preceding paragraphs accordingly. The amendatory language in section 2007(b)(1)(C) has no meaning within the context of the subsection. Subsection (b)(3) clarifies that, in addition to suspensions of driver's licenses under subclause (i) of section 410(c)(7)(A) of title 23, United States Code, clause (B) also covers revocations of driver's licenses under subclause (ii) of the section. Subsection (b)(4) redesignates subsections of section 411 of title 23, United States Code.

LEGISLATIVE HISTORY AND COMMITTEE CONSIDERATION

In the 109th Congress, the bipartisan leadership of the Committee on Transportation and Infrastructure introduced H.R. 5689, a bill to make technical corrections to SAFETEA-LU. The House approved H.R. 5689 by voice vote on June 28, 2006. The Senate Committee on Environment and Public Works reported H.R. 5689 with an amendment in the nature of a substitute on September 14, 2006. The bill was never considered by the full Senate.

On September 29, 2006, the bipartisan leadership of the Committee on Transportation and Infrastructure introduced H.R. 6233. The legislation included provisions from the previously passed House bill (H.R. 5689), as well as a number of provisions included at the request of the Senate. On September 29, 2006, the House passed H.R. 6233 by voice vote. On September 29, 2006, the House also passed H. Con. Res. 491, providing for a correction to the enrollment of H.R. 6233, by unanimous consent. No further action was taken in the Senate on the SAFETEA-LU technical corrections bill in 109th Congress.

In the 110th Congress, the bipartisan leadership of the Committee on Transportation and Infrastructure introduced H.R. 1195 on February 27, 2007, to make technical corrections to SAFETEA-LU. This bill is based upon H.R. 6233, as passed by the House in the 109th Congress. The bill includes additional corrections and conforming changes identified by the U.S. Department of Transportation and changes to previously-authorized projects requested by Members of Congress.

On March 1, 2007, the Committee on Transportation and Infrastructure met in open session and considered 1195 and adopted a manager's amendment by voice vote. The Committee ordered H.R. 1195, as amended, reported favorably to the House by voice vote.

RECORD VOTES

Clause 3(b) of rule XIII of the House of Representatives requires each committee report to include the total number of votes cast for and against on each record vote on a motion to report and on any

amendment offered to the measure or matter, and the names of those members voting for and against. There were no recorded votes taken in connection with any amendment offered to H.R. 1195 or on ordering the bill reported. A motion to order H.R. 1195, as amended, reported favorably to the House was agreed to by voice vote with a quorum present.

COMMITTEE OVERSIGHT FINDINGS

With respect to the requirements of clause 3(c)(I) of rule XIII of the Rules of the House of Representatives, the Committee's oversight findings and recommendations are reflected in this report.

COST OF LEGISLATION

Clause 3(c)(2) of rule XIII of the Rules of the House of Representatives does not apply where a cost estimate and comparison prepared by the Director of the Congressional Budget Office under section 402 of the Congressional Budget Act of 1974 has been timely submitted prior to the filing of the report and is included in the report. Such a cost estimate is included in this report.

COMPLIANCE WITH HOUSE RULE XIII

1. With respect to the requirement of clause 3(c)(2) of rule XIII of the Rules of the House of Representatives, and 308(a) of the Congressional Budget Act of 1974, the Committee references the report of the Congressional Budget Office included in the report.

2. With respect to the requirement of clause 3(c)(4) of rule XIII of the Rules of the House of Representatives, the performance goals and objective of this legislation are to ensure that federal surface transportation programs and projects are carried out by the U.S. Department of Transportation in an efficient and effective manner and consistent with Congressional intent.

3. With respect to the requirement of clause 3(c)(3) of rule XIII of the Rules of the House of Representatives and section 402 of the Congressional Budget Act of 1974, the Committee has received the enclosed cost estimate for H.R. 1195 from the Director of the Congressional Budget Office.

U.S. CONGRESS,
CONGRESSIONAL BUDGET OFFICE,
Washington, DC, March 21, 2007.

Hon. JAMES L. OBERSTAR,
*Chairman Committee on Transportation and Infrastructure,
House of Representatives, Washington, DC.*

DEAR MR. CHAIRMAN: The Congressional Budget Office has prepared the enclosed cost estimate for H.R. 1195, an act to amend the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users to make technical corrections, and for other purposes.

If you wish further details on this estimate, we will be pleased to provide them. The CBO staff contact is Sarah Puro.

Enclosure.

Sincerely,

PETER P. ORSZAG,
Director.

H.R. 1195—An act to amend the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users to make technical corrections, and for other purposes

Summary: H.R. 1195 would make numerous amendments to the current authorization law for highway programs—the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (Public Law 109–59). H.R. 1195 would provide contract authority (a mandatory form of budget authority) for magnetic levitation transportation projects and for the National Surface Transportation Policy and Revenue Commission. The bill also would rescind a portion of unused contract authority in fiscal year 2009, the last year of the current authorization period for highway and mass transit programs. The bill’s net impact would be a reduction of \$25 million in contract authority for highway programs over the 2007–2009 period.

CBO expects that spending for the programs mentioned above will be controlled by limits on annual obligations set in appropriation acts (known as obligation limitations). Consequently, the changes in contract authority would not affect direct spending outlays. The legislation would not amend the obligation limitations specified in current law; thus, CBO estimates that implementing this legislation would not have a significant impact on discretionary outlays. However H.R. 1195 would affect direct spending by amending the authorization for a specific project that CBO expects would not be completed under current law, CBO estimates that the resulting increase in direct spending would be \$499,000. Enacting H.R. 1195 would not affect revenues.

The bill contains no intergovernmental or private-sector mandates as defined in the Unfunded Mandates Reform Act (UMRA); any costs to state, local, or tribal governments would result from complying with conditions of federal assistance.

Estimated cost to the Federal Government: The estimated budgetary impact of H.R. 1195 is shown in the following table. The costs of this legislation fall within budget function 400 (transportation).

	By fiscal year, in millions of dollars—					
	2007	2008	2009	2010	2011	2012
CHANGES IN DIRECT SPENDING						
Deployment of Magnetic Levitation Transportation Projects:						
Budget Authority	20	35	35	0	0	0
Estimated Outlays ¹	0	0	0	0	0	0
National Surface Transportation Policy and Revenue Commission:						
Budget Authority	2	0	0	0	0	0
Estimated Outlays ¹	0	0	0	0	0	0
Rescission of Unobligated Contract Authority:						
Budget Authority	0	0	–117	0	0	0
Estimated Outlays ¹	0	0	0	0	0	0
Changes in Funding for Existing Projects:						
Budget Authority	0	0	0	0	0	0
Estimated Outlays	0	*	*	*	*	*
Total Changes:						
Budget Authority	22	35	–82	0	0	0
Estimated Outlays	0	*	*	*	*	*

¹The spending of the contract authority is controlled by annual limits on obligations set in appropriation acts and is therefore considered discretionary. Thus, enacting these provisions would not affect direct spending outlays.
Note.—* = Less than \$500,000.

Basis of estimate: For this estimate, CBO assumes that H.R. 1195 will be enacted in fiscal year 2007 and that spending will fol-

low historical patterns for similar programs. CBO estimates that enacting H.R. 1195 would reduce contract authority by \$25 million over the 2007–2009 period. The bill would not affect revenues.

Changes to contract authority

The Federal-Aid Highway program receives contract authority under the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users. Most spending from that contract authority is subject to annual limits on obligations set in appropriation acts. For that reason, most of the program’s outlays are considered discretionary, and they would not be affected by the bill’s changes in the amount of contract authority available.

If enacted, H.R. 1195 would provide new or increased contract authority for the following programs:

- **Magnetic Levitation Transportation Projects.** Under current law, funding for projects that use magnetic force to suspend and propel a transportation system is authorized to be appropriated. Section 102 of the bill would amend the authorization to create \$20 million in contract authority in 2007 and a total of \$90 million over 2007–2009 period.

- **National Surface Transportation Policy and Revenue Commission.** The commission studies and plans for the future of the nation’s surface transportation system. Section 108 would provide the commission with an additional \$2 million in contract authority for fiscal year 2007.

Section 114 would rescind \$117 million of contract authority in fiscal year 2009. That change, when combined with the new or increased contract authority that would be made available by the legislation, would reduce contract authority by \$25 million over the 2007–2009 period. Because contract authority for the programs listed above is subject to limits on annual obligations set in appropriation acts and because CBO estimates that the rescission would not impair the various transportation programs’ ability to meet obligations in the next several years, CBO estimates that the changes in contract authority would not affect outlays (either mandatory or discretionary) over the next several years.

Changes to direct spending outlays

Section 115 would revise the authorization for a project in the state of Minnesota previously authorized by the Transportation Equity Act for the 21st Century (Public Law 105–85). Based on information from the Department of Transportation and others with knowledge of the project, CBO does not expect the funds authorized under current law to be spent because the original project for which the funds were designated is not going to be completed. Instead, the bill would designate the funds for a different project in the state. Therefore, this provision would result in an increase in spending of \$499,000 over the 2008–2012 period that would not occur under current law.

Intergovernmental and private-sector mandates: The bill contains no intergovernmental or private-sector mandates as defined in UMRA; any costs to state, local, or tribal governments would result from complying with conditions of federal assistance.

Estimate prepared by: Federal Spending: Sarah Puro. Impact on State, Local, and Tribal Governments: Sarah Puro. Impact on the Private Sector: Fatimot Ladipo.

Estimate approved by: Peter H. Fontaine, Deputy Assistant Director for Budget Analysis.

COMPLIANCE WITH HOUSE RULE XXI

Pursuant to clause 9 of rule XXI of the Rules of the House of Representatives, the Committee is required to include a list of congressional earmarks, limited tax benefits, or limited tariff benefits as defined in clause 9(d), 9(e), or 9(f) of rule XXI of the Rules of the House of Representatives. It is not clear if the definition of “congressional earmark” under clause 9(d) of rule XXI applies to technical corrections to SAFETEA–LU projects because these technical corrections do not provide new budget authority for such projects.

However, in the interests of full disclosure and transparency, the Committee has required Members of Congress to comply with all requirements of clause 9(d), 9(e), or 9(f) of rule XXI. The following table provides the list of such provisions included in the bill:

H.R. 1195 Section	SAFETEA-LU Section	Legislative Provision	Requested By:

CONSTITUTIONAL AUTHORITY STATEMENT

Pursuant to clause (3)(d)(1) of rule XIII of the Rules of the House of Representatives, committee reports on a bill or joint resolution of a public character shall include a statement citing the specific powers granted to the Congress in the Constitution to enact the measure. The Committee on Transportation and Infrastructure finds that Congress has the authority to enact this measure pursuant to its powers granted under article I, section 8 of the Constitution.

FEDERAL MANDATES STATEMENT

The Committee adopts as its own the estimate of Federal mandates prepared by the Director of the Congressional Budget Office pursuant to section 423 of the Unfunded Mandates Reform Act (Public Law 104–4).

PREEMPTION CLARIFICATION

Section 423 of the Congressional Budget Act of 1974 requires the report of any Committee on a bill or joint resolution to include a statement on the extent to which the bill or joint resolution is intended to preempt state, local, or tribal law. The Committee states that H.R. 1195 does not preempt any state, local, or tribal law.

ADVISORY COMMITTEE STATEMENT

No advisory committees within the meaning of section 5(b) of the Federal Advisory Committee Act are created by this legislation.

APPLICABILITY TO THE LEGISLATIVE BRANCH

The Committee finds that the legislation does not relate to the terms and conditions of employment or access to public services or accommodations within the meaning of section 102(b)(3) of the Congressional Accountability Act (Public Law 104–1).

CHANGES IN EXISTING LAW MADE BY THE BILL, AS REPORTED

In compliance with clause 3(e) of rule XIII of the Rules of the House of Representatives, changes in existing law made by the bill, as reported, are shown as follows (existing law proposed to be omitted is enclosed in black brackets, new matter is printed in italic, existing law in which no change is proposed is shown in roman):

SEC. 1909. FUTURE OF SURFACE TRANSPORTATION SYSTEM.

(a) * * *

(b) NATIONAL SURFACE TRANSPORTATION POLICY AND REVENUE STUDY COMMISSION.—

(1) * * *

* * * * *

(9) REPORT AND RECOMMENDATIONS.—Not later than [July 1, 2007] *December 31, 2007*, the Commission shall submit to Congress—

(A) * * *

* * * * *

(11) COMMISSION PERSONNEL MATTERS.—

(A) * * *

* * * * *

(C) ADMINISTRATIVE SUPPORT.—On the request of the Commission, [the Administrator of the Federal Highway Administration] *the Secretary* shall provide to the Commission, on a reimbursable basis, the administrative support and services necessary for the Commission to carry out the duties of the Commission under this section.

(D) DETAIL OF PERSONNEL.—

(i) IN GENERAL.—On the request of the Commission, the Secretary may detail[, on a reimbursable basis,] any of the personnel of the Department to the Commission to assist the Commission in carrying out the duties of the Commission under this section.

* * * * *

(14) LIMITATIONS.—*Funds made available to carry out this section may be expended only to support the activities of the Commission. No data, analyses, reports, or any other documents prepared for the Commission to fulfill its duties may be provided to or shared with other commissions or task forces until such data, analyses, reports, or documents have been made available to the public.*

[(14)] (15) DEFINITION OF SURFACE TRANSPORTATION SYSTEM.—In this subsection, the term “surface transportation system” includes—

(A) * * *

* * * * *

[(15)] (16) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated from the Highway Trust Fund (other than the Mass Transit Account) to carry out this section [\$1,400,000 for each of fiscal years 2006 and 2007] *\$1,400,000 for fiscal year 2006 and \$3,400,000 for fiscal year 2007.*

[(16)] (17) APPLICABILITY OF TITLE 23.—Funds made available to carry out this section shall be available for obligation in the same manner as if such funds were apportioned under

chapter 1 of title 23, United States Code; except that such funds shall remain available until expended, and the Federal share of the cost of a project under this section shall be as provided in this section.

[(17)] (18) TERMINATION.—

(A) * * *

* * * * *

SEC. 1928. SENSE OF CONGRESS REGARDING BUY AMERICA.

It is the sense of Congress that—

(1) * * *

(2) *the current application by the Federal Highway Administration of the Buy America test is only applied to components or parts of a bridge project and not the entire bridge project and this is inconsistent with this sense of Congress;*

[(2)] (3) the law clearly states that domestic materials must be used in Federal highway projects unless there is a finding that the inclusion of domestic materials will increase the cost of the overall project by more than 25 percent;

[(3)] (4) uncertainty regarding how to apply Buy America laws for major bridge projects threatens the domestic bridge industry;

[(4)] (5) because the Nation’s unemployment rate continues to hover around 5.6 percent, steps are needed to protect American workers and the domestic bridge building industry; and

[(5)] (6) the Buy American Act (41 U.S.C. 10a et seq.) was designed to ensure that, when taxpayer money is spent on direct Federal Government procurement and infrastructure projects, these expenditures stimulate United States production and job creation.

(D) REQUIREMENT OF ANTICIPATED FULL FUNDING.—The program shall include a project, or an identified phase of a project, only if full funding can reasonably be anticipated to be available for the project *or the identified phase* within

the time period contemplated for completion of the project
or the identified phase.

* * * * *

(k) TRANSPORTATION MANAGEMENT AREAS.—

(1) * * *

(2) TRANSPORTATION PLANS.—In [a metropolitan planning area serving] a transportation management area, transportation plans shall be based on a continuing and comprehensive transportation planning process carried out by the metropolitan planning organization in cooperation with the State and public transportation operators.

§ 144. Highway bridge [replacement and rehabilitation] program

(a) * * *

(b) The Secretary, in consultation with the States, shall (1) inventory all those highway bridges on any [Federal-aid system] *Federal-aid highway* which are bridges over waterways, other topographical barriers, other highways, and railroads; (2) classify them according to serviceability, safety, and essentiality for public use; (3) based on that classification, assign each a priority for replacement or rehabilitation; and (4) determine the cost of replacing each such bridge with a comparable facility or of rehabilitating such bridge.

(c)(1) The Secretary, in consultation with the States, shall (1) inventory all those highway bridges on public roads, other than those on any [Federal-aid system] *Federal-aid highway*, which are bridges over waterways, other topographical barriers, other highways, and railroads, (2) classify them according to serviceability, safety, and essentiality for public use, (3) based on the classification, assign each a priority for replacement or rehabilitation and (4) determine the cost of replacing each such bridge with a comparable facility or of rehabilitating such bridge.

(2) The Secretary may, at the request of a State, inventory bridges, on and off [the Federal-aid system] *Federal-aid highways*, for historic significance.

* * * * *

(d) PARTICIPATION.—

(1) * * *

* * * * *

(4) SPECIAL RULE FOR *SYSTEMATIC* PREVENTIVE MAINTENANCE.—Notwithstanding any other provision of this subsection, a State may carry out a project under paragraph (2)(B), (2)(C), or (2)(D) for a highway bridge without regard to whether the bridge is eligible for replacement or rehabilitation under this section.

(e) Funds authorized to carry out this section shall be apportioned among the several States on October 1 of the fiscal year for which authorized in accordance with this subsection. Each deficient bridge shall be placed into one of the following categories: (1) [Federal-aid system] *Federal-aid highway* bridges eligible for replacement, (2) [Federal-aid system] *Federal-aid highway* bridges eligi-

ble for rehabilitation, (3) **off-system bridges** *bridges not on Federal-aid highways* eligible for replacement, and (4) **off-system bridges** *bridges not on Federal-aid highways* eligible for rehabilitation. The deck area of deficient bridges in each category shall be multiplied by the respective unit price on a State-by-State basis, as determined by the Secretary; and the total cost in each State divided by the total cost of the deficient bridges in all States shall determine the apportionment factors. For purposes of the preceding sentence, if a State transfers funds apportioned to the State under this section in a fiscal year beginning after September 30, 1997, to any other apportionment of funds to such State under this title, the total cost of deficient bridges in such State and in all States to be determined for the succeeding fiscal year shall be reduced by the amount of such transferred funds. No State shall receive more than 10 per centum or less than 0.25 per centum of the total apportionment for any one fiscal year. The Secretary shall make these determinations based upon the latest available data, which shall be updated annually. Funds apportioned under this section shall be available for expenditure for the period specified in section 118(b)(2). Any funds not obligated at the expiration of such period shall be reapportioned by the Secretary to the other States in accordance with this subsection. The use of funds authorized under this section to carry out a project for the seismic retrofit of a bridge shall not affect the apportionment of funds under this section.

[(f) The Federal share payable on account of any project under this section shall be 80 per centum of the cost thereof.]

[(g) (f) BRIDGE SET-ASIDES.—

(1) * * *

(2) **[OFF-SYSTEM BRIDGES] BRIDGES NOT ON FEDERAL-AID HIGHWAYS.—**

(A) * * *

* * * * *

[(h) (g) Notwithstanding any other provision of law, the General Bridge Act of 1946 (33 U.S.C. 525–533) shall apply to bridges authorized to be replaced, in whole or in part, by this section, except that subsection (b) of section 502 of such Act of 1946 and section 9 of the Act of March 3, 1899 (30 Stat. 1151) shall not apply to any bridge constructed, reconstructed, rehabilitated, or replaced with assistance under this title, if such bridge is over waters (1) which are not used and are not susceptible to use in their natural condition or by reasonable improvement as a means to transport interstate or foreign commerce, and (2) which are (a) not tidal, or (b) if tidal, used only by recreational boating, fishing, and other small vessels less than 21 feet in length.

[(i) (h) INVENTORIES AND REPORTS.—The Secretary shall—

(1) * * *

* * * * *

[(j) (i) Sums apportioned to a State under this section shall be made available for obligation throughout such State on a fair and equitable basis.

[(k) (j) Not later than six months after the date of enactment of this subsection, and periodically thereafter, the Secretary shall review the procedure used in approving or disapproving applications submitted under this section to determine what changes, if

any, may be made to expedite such procedure. Any such changes shall be implemented by the Secretary as soon as possible. Not later than nine months after the date of enactment of this subsection, the Secretary shall submit a report to Congress which describes such review and such changes, including any recommendations for legislative changes.

[(1)] (k) Notwithstanding any other provision of law, any bridge which is owned and operated by an agency (1) which does not have taxing powers, (2) whose functions include operating a federally assisted public transit system subsidized by toll revenues, shall be eligible for assistance under this section but the amount of such assistance shall in no event exceed the cumulative amount which such agency has expended for capital and operating costs to subsidize such transit system. Before authorizing an expenditure of funds under this subsection, the Secretary shall determine that the applicant agency has insufficient reserves, surpluses, and projected revenues (over and above those required for bridge and transit capital and operating costs) to fund the necessary bridge replacement or rehabilitation project. Any non-Federal funds expended for the seismic retrofit of the bridge may be credited toward the non-Federal share required as a condition of receipt of any Federal funds for seismic retrofit of the bridge made available after the date of the expenditure.

[(m)] (l) REPLACEMENT OF DESTROYED BRIDGES AND FERRYBOAT SERVICE.—

(1) * * *

* * * * *

[(n)] OFF-SYSTEM BRIDGE PROGRAM (m) PROGRAM FOR BRIDGES NOT ON FEDERAL-AID HIGHWAYS.—Notwithstanding any other provision of law, with respect to any project not on a Federal-aid highway for the replacement of a bridge or rehabilitation of a bridge which is wholly funded from State and local sources, is eligible for Federal funds under this section, is noncontroversial, is certified by the State to have been carried out in accordance with all standards applicable to such projects under this section, and is determined by the Secretary upon completion to be no longer a deficient bridge, any amount expended after the date of the enactment of this subsection from State and local sources for such project in excess of 20 percent of the cost of construction thereof may be credited to the non-Federal share of the cost of the projects in such State which are eligible for Federal funds under this section. Such crediting shall be in accordance with such procedures as the Secretary may establish.

[(o)] (n) HISTORIC BRIDGE PROGRAM.—

(1) * * *

(2) STATE INVENTORY.—The Secretary shall require each State to complete an inventory of all bridges on and off [the Federal-aid system] *Federal-aid highways* to determine their historic significance.

* * * * *

(4) PRESERVATION.—Any State which proposes to demolish a historic bridge for a replacement project with funds made available to carry out this section shall first make the bridge available for donation to a State, locality, or responsible pri-

vate entity if such State, locality, or responsible entity enters into an agreement to—

(A) * * *

(B) assume all future legal and financial responsibility for the bridge, which may include an agreement to hold the [State highway agency] *State transportation department* harmless in any liability action.

* * * * *

[(p)] (o) APPLICABILITY OF STATE STANDARDS FOR PROJECTS.—A project not on a Federal-aid highway under this section shall be designed, constructed, operated, and maintained in accordance with State laws, regulations, directives, safety standards, design standards, and construction standards.

[(q)] (p) As used in this section the term “rehabilitate” in any of its forms means major work necessary to restore the structural integrity of a bridge as well as work necessary to correct a major safety defect.

[(r)] (q) ANNUAL MATERIALS REPORT ON NEW BRIDGE CONSTRUCTION AND BRIDGE REHABILITATION.—Not later than 1 year after the date of enactment of this subsection, and annually thereafter, the Secretary shall publish in the Federal Register a report describing construction materials used in new Federal-aid bridge construction and bridge rehabilitation projects.

§ 164. Minimum penalties for repeat offenders for driving while intoxicated or driving under the influence

(a) DEFINITIONS.—In this section, the following definitions apply:

(1) * * *

* * * * *

(5) REPEAT INTOXICATED DRIVER LAW.—The term “repeat intoxicated driver law” means a State law that provides, as a minimum penalty, that an individual convicted of a second or subsequent offense for driving while intoxicated or driving under the influence after a previous conviction for that offense shall—

[(A) receive a driver’s license suspension for not less than 1 year;

[(B) be subject to the impoundment or immobilization of each of the individual’s motor vehicles or the installation of an ignition interlock system on each of the motor vehicles;]

(A) receive—

(i) a driver’s license suspension for not less than 1 year; or

(ii) a combination of suspension of all driving privileges for the first 45 days of the suspension period followed by a reinstatement of limited driving privileges for the purpose of getting to and from work, school, or an alcohol treatment program if an ignition interlock device is installed on each of the motor vehicles owned or operated, or both, by the individual;

(B) be subject to the impoundment or immobilization of, or the installation of an ignition interlock system on, each motor vehicle owned or operated, or both, by the individual;

(i) * * *

* * * * *

CHAPTER 4—HIGHWAY SAFETY

* * * * *

§ 402. Highway safety programs

(a) * * *

* * * * *

(c) Funds authorized to be appropriated to carry out this section shall be used to aid the States to conduct the highway safety programs approved in accordance with subsection (a), including development and implementation of manpower training programs, and of demonstration programs that the Secretary determines will contribute directly to the reduction of accidents, and deaths and injuries resulting therefrom. Such funds shall be apportioned 75 per centum in the ratio which the population of each State bears to the total population of all the States, as shown by the latest available Federal census, and 25 per centum in the ratio which the public road mileage in each State bears to the total public road mileage in all States. For the purposes of this subsection, a “public road” means any road under the jurisdiction of and maintained by a public authority and open to public travel. Public road mileage as used in this subsection shall be determined as of the end of the calendar year preceding the year in which the funds are apportioned and shall be certified to by the Governor of the State and subject to approval by the Secretary. [The annual apportionment to each State shall not be less than one-half of 1 per centum] *The annual apportionment to each State shall not be less than three-quarters of 1 per cent of the total apportionment, except that the apportionment to the Secretary of the Interior shall not be less than 2 percent of the total apportionment and the apportionments to the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands shall not be less than one-quarter of 1 per centum of the total apportionment.* The Secretary shall not apportion any funds under this subsection to any State which is not implementing a highway safety program approved by the Secretary in accordance with this section. For the purpose of the seventh sentence of this subsection, a highway safety program approved by the Secretary

shall not include any requirement that a State implement such a program by adopting or enforcing any law, rule, or regulation based on a guideline promulgated by the Secretary under this section requiring any motorcycle operator eighteen years of age or older or passenger eighteen years of age or older to wear a safety helmet when operating or riding a motorcycle on the streets and highways of that State. Implementation of a highway safety program under this section shall not be construed to require the Secretary to require compliance with every uniform guideline, or with every element of every uniform guideline, in every State. Funds apportioned under this section to any State, that does not have a highway safety program approved by the Secretary or that is not implementing an approved program, shall be reduced by amounts equal to not less than 50 per centum of the amounts that would otherwise be apportioned to the State under this section, until such time as the Secretary approves such program or determines that the State is implementing an approved program, as appropriate. The Secretary shall consider the gravity of the State's failure to have or implement an approved program in determining the amount of the reduction. The Secretary shall promptly apportion to the State the funds withheld from its apportionment if he approves the State's highway safety program or determines that the State has begun implementing an approved program, as appropriate, prior to the end of the fiscal year for which the funds were withheld. If the Secretary determines that the State did not correct its failure within such period, the Secretary shall reapportion the withheld funds to the other States in accordance with the formula specified in this subsection not later than 30 days after such determination.

* * * * *

(m) CONSOLIDATION OF GRANT APPLICATIONS.—The Secretary shall establish an approval process by which a State may apply for all grants under this chapter [through] *for which* a single application process with one annual deadline *is appropriate*. The Bureau of Indian Affairs shall establish a similar simplified process for applications for grants from Indian tribes under this chapter.

CHAPTER 145—FEDERAL-STATE RELATIONS

* * * * *

§ 14504a. Unified Carrier Registration System plan and agreement

(a) DEFINITIONS.—In this section and section 14506, the following definitions apply:

(1) COMMERCIAL MOTOR VEHICLE.—

(A) * * *

(B) EXCEPTION.—With respect to [a motor carrier required to make any filing or pay any fee to a State with respect to the motor carrier’s authority or insurance related to operation within such State, the motor carrier] determining the size of a motor carrier or motor private carrier’s fleet in calculating the fee to be paid by a motor carrier or motor private carrier pursuant to subsection (f)(1), the motor carrier or motor private carrier shall have the option to include, in addition to commercial motor vehicles as defined in subparagraph (A), any self-propelled vehicle used on the highway in commerce to transport passengers or property for compensation regardless of the gross vehicle weight rating of the vehicle or the number of passengers transported by such vehicle.

* * * * *

(c) UNREASONABLE BURDEN.—For purposes of this section, it shall be considered an unreasonable burden upon interstate com-

merce for any State or any political subdivision of a State, or any political authority of two or more States—

(1) to enact, impose, or enforce any requirement or standards with respect to, or levy any fee or charge on, any motor carrier or motor private carrier providing transportation or service subject to jurisdiction under subchapter I of chapter 135 (in this section referred to as an “interstate motor carrier” and an “interstate motor private carrier”, respectively) in connection with—

(A) * * *

(B) the filing with the State of information relating to the financial responsibility of [the] a motor carrier or motor private carrier pursuant to sections 31138 or 31139;

* * * * *

(2) to require any interstate motor carrier or motor private carrier that also performs intrastate operations to pay any fee or tax which a carrier engaged exclusively in [interstate] intrastate operations is exempt.

* * * * *

(f) CONTENTS OF UNIFIED CARRIER REGISTRATION AGREEMENT.—The unified carrier registration agreement shall provide the following:

(1) FEES.—(A) Fees charged—

(i) to a motor carrier, motor private carrier, or freight forwarder [in connection with the filing of proof of financial responsibility] under the UCR agreement shall be based on the number of commercial motor vehicles owned or operated by the motor carrier, motor private carrier, or freight forwarder; and

(ii) to a broker or leasing company in connection with such a filing shall be equal to the smallest fee charged to a motor carrier, motor private carrier, and freight forwarder [or] under this paragraph.
