

**Proclamation 6598—Death of  
General James H. Doolittle**

September 30, 1993

*By the President of the United States  
of America*

**A Proclamation**

As a mark of respect for the memory of General James H. Doolittle, one of our Nation's foremost military heroes, I hereby order, by the authority vested in me as President of the United States of America by section 175 of title 36 of the United States Code, that on Friday, October 1, 1993, the flag of the United States shall be flown at half-staff upon all public buildings and grounds, at all military posts and naval stations, and on all naval vessels of the Federal Government, in the District of Columbia and throughout the United States and its Territories and possessions. I also direct that the flag shall be flown at half-staff on the same day at all United States embassies, legations, consular offices, and other facilities abroad, including all military facilities and naval vessels and stations.

**In Witness Whereof**, I have hereunto set my hand this thirtieth day of September, in the year of our Lord nineteen hundred and ninety-three, and of the Independence of the United States of America the two hundred and eighteenth.

**William J. Clinton**

[Filed with the Office of the Federal Register, 11:11 a.m., September 30, 1993]

NOTE: This proclamation was published in the *Federal Register* on October 1.

**Proclamation 6599—To Amend the  
Generalized System of Preferences**

September 30, 1993

*By the President of the United States  
of America*

**A Proclamation**

1. Pursuant to sections 501 and 502 of the Trade Act of 1974, as amended ("Trade Act") (19 U.S.C. 2461 and 2462), and having due

regard for the eligibility criteria set forth therein, I have determined that it is appropriate to designate Russia as a beneficiary developing country for purposes of the Generalized System of Preferences ("GSP").

2. Section 604 of the Trade Act (19 U.S.C. 2483) authorizes the President to embody in the Harmonized Tariff Schedule ("HTS") the substance of the provisions of that Act, and of other acts affecting import treatment, and actions thereunder.

**Now, Therefore, I, William J. Clinton**, President of the United States of America, acting under the authority vested in me by the Constitution and the laws of the United States of America, including but not limited to sections 501 and 604 of the Trade Act, do proclaim that:

(1) General note 3(c)(ii)(A) to the HTS, listing those countries whose products are eligible for benefits of the GSP, is modified by inserting "Russia" in alphabetical order in the enumeration of independent countries.

(2) Any provisions of previous proclamations and Executive orders inconsistent with the provisions of this proclamation are hereby superseded to the extent of such inconsistency.

(3) The modifications to the HTS made by paragraph (1) of this proclamation shall be effective with respect to articles that are: (i) imported on or after January 1, 1976, and (ii) entered, or withdrawn from warehouse for consumption, on or after 15 days after the date of publication of this proclamation in the *Federal Register*.

**In Witness Whereof**, I have hereunto set my hand this thirtieth day of September, in the year of our Lord nineteen hundred and ninety-three, and of the Independence of the United States of America the two hundred and eighteenth.

**William J. Clinton**

[Filed with the Office of the Federal Register, 11:12 a.m., September 30, 1993]

NOTE: This proclamation was published in the *Federal Register* on October 1.

**Message to the Congress on Adding  
Russia to the Generalized System of  
Preferences**

*September 30, 1993*

*To the Congress of the United States:*

I am writing to inform you of my intent to add Russia to the list of beneficiary developing countries under the Generalized System of Preferences (GSP). The GSP program offers duty-free access to the U.S. market and is authorized by the Trade Act of 1974.

I have carefully considered the criteria identified in sections 501 and 502 of the Trade Act of 1974. In light of these criteria, and particularly Russia's level of development and initiation of economic reforms, I have determined that it is appropriate to extend GSP benefits to Russia.

This notice is submitted in accordance with section 502(a)(1) of the Trade Act of 1974.

**Proclamation 6600—National Breast  
Cancer Awareness Month, 1993**

*September 30, 1993*

*By the President of the United States  
of America*

**A Proclamation**

Breast cancer will affect an estimated 182,000 women in 1993. It accounts for nearly one-third of all cancers diagnosed in women, making it one of the most serious health problems we face in America today. Each year, we designate one month to focus public attention on where we as a Nation stand with regard to this disease. This October is National Breast Cancer Awareness Month, and it is appropriate that we pause to consider, not only the strategies we have developed to combat breast cancer, but also the progress we have made in our fight, even as we acknowledge the high toll it takes on so many lives.

Breast cancer prevention research is playing an increasingly important role in our strategy to overcome this disease. Although we still have much to learn about what causes breast cancer, we do know that certain conditions or behaviors substantially increase a woman's risk of developing this disease. Some risks can be avoided, and researchers hope that others can be minimized. For this reason, the National Institutes of Health, through its component institutes—especially the National Cancer Institute—has launched important studies to assess the extent to which changes in diet and the use of the drug tamoxifen, which is effective in treating breast cancer, can prevent the development of this disease in women who are at increased risk.

The Woman's Health Trial is an exciting, innovative undertaking that aims to change dietary habits so that less fat is consumed and more fruits, vegetables, and fiber are added to our diet each day. There is some evidence to suggest a link between breast cancer and fat in the diet, at least for older women. What we hope to learn from this study is how best to help women change their eating habits and, thus, protect themselves, not only from breast cancer, but also from other cancers and conditions that are related to diet.

While there is much to be said about this disease, one important message must reach everyone: Women should form a partnership with their health care providers for the early detection of breast cancer, a key component of our nationwide program to reduce the toll of this disease. Research has shown that screening mammography, used together on a regular basis with a clinical breast exam and monthly breast self-examination, can reduce deaths from this disease by one-third or more for women over 50. I am pleased that the Federal Government has been a leader in authorizing payment for screening mammography for women enrolled in Federal health care programs. It is also reassuring that insurance companies have followed suit, recognizing that the benefits of early detection far outweigh its costs. As we look to create a health care system in America that works for all people, we must be certain that
