

Proclamation 6871—National Poison Prevention Week, 1996

March 11, 1996

By the President of the United States of America

A Proclamation

As we recognize National Poison Prevention Week, we can be proud of the 35 years of public health efforts that have dramatically reduced the number of childhood deaths caused by poisoning. Measures such as child-resistant packaging and the lifesaving work of poison prevention experts have raised awareness of this important issue and given families and caregivers strategies to safeguard young people from harm.

Nevertheless, the American Association of Poison Control Centers estimates that over one million children each year are exposed to potentially toxic household materials. The Poison Prevention Week Council, a coalition of 38 national organizations dedicated to ending this threat, distributes valuable information to poison control centers, pharmacies, public health departments, and others to aid community poison prevention efforts. In addition, the Consumer Product Safety Commission has long required child-resistant packaging for a number of medicines and household chemicals. The recent development of such packaging that is easier for adults to open will mean more conscientious use of hazardous products and a decreased risk of accidental poisoning.

This week and throughout the year, we must remember that small safety measures—such as using child-resistant packaging correctly and keeping harmful substances locked away from children—can save lives. And if a poisoning occurs, a poison control center can offer emergency intervention. By keeping these simple measures in mind, we can better protect our children and make home safety a routine part of our daily lives.

To encourage the American people to learn more about the dangers of accidental poisoning and to take preventive steps, the Congress, by Public Law 87-319 (75 Stat. 681), has authorized and requested the President to issue a proclamation designating the

third week of March of each year as “National Poison Prevention Week.”

Now, Therefore, I, William J. Clinton, President of the United States of America, do hereby proclaim March 17 through March 23, 1996, as National Poison Prevention Week. I call upon all Americans to observe this week by participating in appropriate ceremonies, activities, and educational programs.

In Witness Whereof, I have hereunto set my hand this eleventh day of March, in the year of our Lord nineteen hundred and ninety-six, and of the Independence of the United States of America the two hundred and twentieth.

William J. Clinton

NOTE: This proclamation was published in the *Federal Register* on March 13.

Message to the Congress on Iran

March 11, 1996

To the Congress of the United States:

I hereby report to the Congress on developments concerning the national emergency with respect to Iran that was declared in Executive Order No. 12957 of March 15, 1995, and matters relating to the measures in that order and in Executive Order No. 12959 of May 6, 1995. This report is submitted pursuant to section 204(c) of the International Emergency Economic Powers Act, 50 U.S.C. 1703(c) (IEEPA), and section 505(c) of the International Security and Development Cooperation Act of 1985, 22 U.S.C. 2349aa-9(c). This report discusses only matters concerning the national emergency with respect to Iran that was declared in Executive Order No. 12957 and matters relating to that Executive order and Executive Order No. 12959.

1. On March 15, 1995, I issued Executive Order No. 12957 (60 *Fed. Reg.* 14615, March 17, 1995) to declare a national emergency with respect to Iran pursuant to IEEPA, and to prohibit the financing, management, or supervision by U.S. persons of the development of Iranian petroleum resources. This action was in response to actions and policies of the
