

Remarks Prior to a Meeting With Congressional Leaders

February 11, 1997

First, I want to thank Senator Lott for hosting this. I thank the Speaker and Senator Lott and the leadership for inviting us to come down here and meet with the bipartisan leadership today. I think it's a very important first step after the State of the Union Address. It indicates we want to work together.

We'll discuss a lot of issues, I'm sure. I just want to emphasize, too, I think it's imperative that we pass a bipartisan balanced budget this year. And I think it's imperative that we find a way to work together on education reform, and we'll be talking about how we can do that. There are many other things, but I want to emphasize those two above all.

The reception that I received in Maryland yesterday was a reception for the importance of education standards and educational opportunity in America as we move into this new century. And so I'm optimistic, I'm hopeful, and I'm gratified to be invited to be here.

NOTE: The President spoke at 11:10 a.m. in the President's Bill Signing Room at the Capitol. A tape was not available for verification of the content of these remarks.

Executive Order 13035—Advisory Committee on High-Performance Computing and Communications, Information Technology, and the Next Generation Internet

February 11, 1997

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the High-Performance Computing Act of 1991 (Public Law 102-194) ("Act"), and in order to establish an advisory committee on high-performance computing and communications, Information Technology, and the Next Generation Internet, it is hereby ordered as follows:

Section 1. Establishment. There is established the "Advisory Committee on High-Performance Computing and Communications, Information Technology, and the Next

Generation Internet" ("Committee"). The Committee shall consist of not more than 25 nonfederal members appointed by the President, including representatives of the research, education, and library communities, network providers, and representatives from critical industries. The President shall designate co-chairs from among the members of the Committee.

Sec. 2. Functions. The Committee shall provide the National Science and Technology Council (NSTC), through the Director of the Office of Science and Technology Policy ("Director"), with advice and information on high-performance computing and communications, information technology, and the Next Generation Internet. The Committee shall provide an independent assessment of:

(1) progress made in implementing the High-Performance Computing and Communications (HPCC) Program;

(2) progress in designing and implementing the Next Generation Internet initiative;

(3) the need to revise the HPCC Program;

(4) balance among components of the HPCC Program;

(5) whether the research and development undertaken pursuant to the HPCC Program is helping to maintain United States leadership in advanced computing and communications technologies and their applications; and

(6) other issues as specified by the Director.

Sec. 3. Administration. To the extent permitted by law and subject to the availability of appropriations, the Department of Defense shall provide the financial and administrative support for the Committee. Further, the Director of the National Coordination Office for Computing Information, and Communications ("Director of the NCO") shall provide such coordination and technical assistance to the Committee as the co-chairs of the Committee may request.

(a) The heads of executive agencies shall, to the extent permitted by law, provide to the Committee such information as it may require for the purpose of carrying out its functions.

(b) The co-chairs may, from time to time, invite experts to submit information to the Committee and may form subcommittees or
