

The Senate bill provides more acceptable funding levels for many key programs but does so by bankrupting the Social Services Block Grant, shifting money from children's health insurance, and making other cuts. The bill does not guarantee funding for critical education priorities such as school renovation and reducing class size and underfunds programs to help unemployed workers and youth get job training. The Senate bill also fails to support critical health programs, including funding for HIV/AIDS prevention and treatment, mental health and substance abuse services, and nursing home quality oversight.

If a bill that fails to address these concerns were to come to me in its current form, I would have to veto it. I look forward to working with Congress to ensure that this bill strengthens our Nation's schools and supports and enhances other important national priorities while continuing to honor our commitment to fiscal integrity.

Proclamation 7305—Mother's Day, 2000

May 10, 2000

By the President of the United States of America

A Proclamation

We are living in a new century and a new age, where the revolution in communications technology is changing almost every aspect of human experience. But even in this new era of global connections, there is perhaps no more powerful link than the love between mother and child.

That bond is a child's first experience of the world, and that love is often the deepest source of the self-esteem, courage, and character that children need to thrive. Mothers are their children's first teachers; they are their inspiring role models whose generosity, compassion, and unconditional acceptance give children the strength and encouragement to reach their fullest potential and to make their own contributions to their families, communities, and country.

Even in this age of spectacular technological advances, mothers still face the daunting challenges of balancing the respon-

sibilities of home and work and meeting the changing emotional, educational, and physical needs of their children. Mothers strive to provide a safe and nurturing environment. They help their children navigate the often stormy waters of an increasingly complicated world. They teach their children to approach conflict with words, not violence; to cherish the richness of our diversity and reject prejudice in any form; and to believe in themselves.

Each year we set aside this special day to acknowledge all that our mothers—whether biological or foster, adoptive or stepmothers—have given us. It is a time to reflect on all we have gained from their unwavering care, guidance, and sacrifice, and a time to express openly our deep gratitude and abiding love. The Congress, by a joint resolution approved May 8, 1914 (38 Stat. 770), has designated the second Sunday in May of each year as "Mother's Day" and requested the President to call for its appropriate observance.

Now, Therefore, I, William J. Clinton, President of the United States of America, do hereby proclaim May 14, 2000, as Mother's Day. Whether we are able to share this special day with our mothers in person or are blessed only with our memories of their love, in our hearts they remain with us always. I urge all Americans to express their love and respect for their mothers on this day, to speak the words of appreciation we too often neglect to say, and to observe this day with appropriate ceremonies, activities, and programs.

In Witness Whereof, I have hereunto set my hand this tenth day of May, in the year of our Lord two thousand, and of the Independence of the United States of America the two hundred and twenty-fourth.

William J. Clinton

**Letter to Senator Dianne Feinstein
on Signing an Executive Order on
Access to HIV/AIDS Pharmaceuticals
and Medical Technologies**

May 10, 2000

Dear Senator Feinstein:

I am pleased to inform you that today I will sign an Executive Order that is intended to help make HIV/AIDS-related drugs and medical technologies more accessible and affordable in beneficiary sub-Saharan African countries. The Executive Order, which is based in large part on your work in connection with the proposed Trade and Development Act of 2000, formalizes U.S. government policy in this area. It also directs other steps to be taken to address the spread of HIV and AIDS in Africa, one of the worst health crises the world faces.

As you know, the worldwide HIV/AIDS epidemic has taken a terrible toll in terms of human suffering. Nowhere has the suffering been as great as in Africa, where over 5,500 people per day are dying from AIDS. Approximately 34 million people in sub-Saharan Africa have been infected and, of those infected, approximately 11.5 million have died. These deaths represent more than 80 percent of the total HIV/AIDS-related deaths worldwide.

To help those countries most affected by HIV/AIDS fight this terrible disease, the Executive Order directs the U.S. Government to refrain from seeking, through negotiation or otherwise, the revocation or revision of any law or policy imposed by a beneficiary sub-Saharan government that promotes access to HIV/AIDS pharmaceuticals and medical technologies. This order will give sub-Saharan governments the flexibility to bring life saving drugs and medical technologies to affected populations. At the same time, the order ensures that fundamental intellectual property rights of U.S. businesses and inventors are protected by requiring sub-Saharan governments to provide adequate and effective intellectual property protection consistent with World Trade Organization rules. In this way, the order strikes a proper balance between the need to enable sub-Saharan governments to increase access to HIV/AIDS pharmaceuticals and medical tech-

nologies and the need to ensure that intellectual property is protected.

I know that you preferred that this policy be included in the Conference Report on the Trade and Development Act of 2000, as did I. However, through this Executive Order, the policy this Administration has pursued with your support will be implemented by the U.S. Government. The Executive Order will encourage beneficiary sub-Saharan African countries to build a better infrastructure to fight diseases like HIV/AIDS as they build better lives for their people. At the same time, the Trade and Development Act of 2000 will strengthen African economies, enhance African democracy, and expand U.S.-African trade. Together, these steps will enable the United States to forge closer ties with our African allies, broaden export opportunities for our workers and businesses, and promote our values around the world.

Thank you for your leadership on this critically important issue.

Sincerely,

William J. Clinton

**Executive Order 13155—Access to
HIV/AIDS Pharmaceuticals and
Medical Technologies**

May 10, 2000

By the authority vested in me as President by the Constitution and the laws of the United States of America, including sections 141 and chapter 1 of title III of the Trade Act of 1974, as amended (19 U.S.C. 2171, 2411–2420), section 307 of the Public Health Service Act (42 U.S.C. 2421), and section 104 of the Foreign Assistance Act of 1961, as amended (22 U.S.C. 2151b), and in accordance with executive branch policy on health-related intellectual property matters to promote access to essential medicines, it is hereby ordered as follows:

Section 1. Policy. (a) In administering sections 301–310 of the Trade Act of 1974, the United States shall not seek, through negotiation or otherwise, the revocation or revision of any intellectual property law or policy of
