Executive Order 13326—President’s Commission on Implementation of United States Space Exploration Policy

January 27, 2004

By the authority vested in me as President by the Constitution and the laws of the United States of America, and to obtain recommendations concerning implementation of the new vision for space exploration activities of the United States, it is hereby ordered as follows:

Section 1. Establishment. There is hereby established the President’s Commission on Implementation of United States Space Exploration Policy (the “Commission”).

Sec. 2. Membership. (a) The Commission shall be composed of not more than nine members appointed by the President, taking into account as appropriate the experience of such individuals with respect to governmental, scientific, and technical matters relating to space.

(b) The President shall designate one member of the Commission to serve as Chairman of the Commission.

Sec. 3. Mission. (a) The mission of the Commission shall be to provide recommendations to the President, in accordance with this order, on implementation of the vision outlined in the President’s policy statement entitled “A Renewed Spirit of Discovery” and the President’s Budget Submission for Fiscal Year 2005 (collectively, “Policy”).

(b) The Commission shall examine and make recommendations to the President regarding:

(i) A science research agenda to be conducted on the Moon and other destinations as well as human and robotic science activities that advance our capacity to achieve the Policy;

(ii) The exploration of technologies, demonstrations, and strategies, in-

cluding the use of lunar and other *in situ* natural resources, that could be used for sustainable human and robotic exploration;

(iii) Criteria that could be used to select future destinations for human exploration;

(iv) Long-term organization options for managing implementation of space exploration activities;

(v) The most appropriate and effective roles for potential private sector and international participants in implementing the Policy;

(vi) Methods for optimizing space exploration activities to encourage the interest of America’s youth in studying and pursuing careers in mathematics, science, and engineering; and

(vii) Management of the implementation of the Policy within available resources.

Sec. 4. Administration. (a) The National Aeronautics and Space Administration (NASA) shall provide, to the extent permitted by law, administrative support and funding for the Commission. The Commission is established in NASA for administrative purposes only.

(b) Members of the Commission shall serve without compensation for their work on the Commission. Members appointed from among private citizens of the United States, however, while engaged in the work of the Commission, may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by law for persons serving intermittently in Government service (5 U.S.C. 5701–5707), to the extent funds are available.

(c) Insofar as the Federal Advisory Committee Act (5 U.S.C. App. 2) (the “Act”), as amended, may apply to the Commission, any functions of the President under that Act, except for those in section 6 of that Act, shall be performed by the Administrator of NASA

(the "Administrator"), in accordance with the guidelines that have been issued by the Administrator of General Services.

(d) The Commission shall conduct occasional meetings as appropriate, including at various locations throughout the United States, to solicit views and opinions from the public, academia, and industry.

(e) The Commission shall not have access to information classified pursuant to Executive Order 12958 of April 17, 1995, as amended.

Sec. 5. Report. The Commission shall submit its final report to the President through the Administrator within 120 days of the first meeting of the Commission.

Sec. 6. General Provisions. (a) This order is intended only to improve the internal management of the executive branch and it is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by a party against the United States, its departments, agencies, instrumentalities or entities, its officers or employees, or any other person.

(b) The Commission shall terminate within 60 days after submitting its final report.

George W. Bush

The White House,
January 27, 2004.

NOTE: This Executive order was released by the Office of the Press Secretary on January 30, and it was published in the *Federal Register* on February 3. This item was not received in time for publication in the appropriate issue.

The President's Radio Address

January 31, 2004

Good morning. This coming week, my administration will release our proposed budget for fiscal year 2005. In that detailed blueprint for Government spending, Americans will see my priorities clearly at work. We will devote the resources necessary to win the war on terror and protect our homeland. We'll provide compassionate help to seniors, to schoolchildren, and to Americans in need of job training. And we will be responsible with

the people's money by cutting the deficit in half over 5 years.

With troops currently on the ground fighting our enemies, my budget increases defense spending by 7 percent, money that will go the pay for equipment, ammunition, and troop housing. We'll keep our military strong and ready for every challenge that may come. Since I took office, we have increased pay for our men and women in uniform by 21 percent. Next year, I propose raising their pay by another 3.5 percent. Our troops put their lives on the line to defend America, and we owe them our best in return.

Given the continued terrorist threat against the American people, my budget nearly triples homeland security spending over 2001 levels, including an increase of nearly 10 percent next year, to \$30.5 billion. This money will help tighten security at our borders, airports, and seaports, and improve our defenses against biological attack. I'm proposing to raise the budget for the FBI by 11 percent, including a \$357 million increase in spending on counterterrorism activities. America will not let its guard down in our war on terror.

My budget also focuses on our priorities at home. This year, we'll begin moving towards prescription drug coverage under Medicare by providing drug discount cards to seniors. We'll also help lower-income seniors this year and next with up to \$600 in direct assistance for drug costs.

We're devoting additional resources to our schools to help them meet the higher expectations set by the No Child Left Behind Act. My budget calls for a 49-percent increase over 2001 spending on our public schools. There will be additional money for early reading programs for schools in low-income areas and for enhanced Pell grant scholarships for students who complete a rigorous curriculum.

My budget also asks Congress to fund my Jobs for the 21st Century Initiative, which will help young people and adults gain the skills they need to fill the new jobs in our changing economy. This initiative will help high school students who are falling behind in reading and math by supporting better teaching methods. And with the support of Congress, we will provide new funding to
